Relief To Teachers

PLEA FOR QUICK ACTION

Bangalore, Dec. 16

In a statement issued yesterday he has stated that repeatedly the grievances of the teachers had been brought to the notice of the three successive governments and the attitide of helpness betrayed by Government on each occasion had struck him as something which did not redound to the credit of the Government.

Commenting on the Press note issued by the Government asking teachers not to resort to direct action, he has stated that lip sympathy had been abundantly in evidence, but when it came to concrete action the Governmental machinery moved in a woefully slow manner.

Pointing out the discrimination among the teaching staff, he has suggested atleast immediate interim relief till the two committees finalised their proposals.

No Major Indo-Pak War

Sri C. C. Desai, Indian High Commissioner in Pakistan said at Bombay yesterday that there would be no war between Pakistan and India although there might be 'minor conflicts and skirmishes' here and there. One of the reasons for this, he said, was that both India and Pakistan had a common history, a common culture and a common tradition. The relations between the two countries were such that there could be no war between them.

Sri Desai said there had been substantial military build up in Pakistan with the aid of U. S. The speeches of Pakistan leaders and the writing in newspapers of that country were such that they affected relationship between India and Pakistan. India could not ignore the implications of the military build-up in Pakistan and she was forced to divert large sums of money every year on national defence. He said it was discouraging that instability was growing in Pakistan. This distrubed Pakistanis as much as outsiders.

Speaking about Kashmir issue Sri Desai said that it had got into a stalemate. More resolutions in the Security Council or even at the General Assembly would not change the present position, he added.

C.M.'s Appeal To Vote For Congress

Mysore, 18

"Congress is the only united and organised party in the country today. It was the Congress which fought for the independence of the country and which is striving for the betterment of the people. Hence, I appeal to the educated and cultured people of Mysore to support the Congress in the ensuing Municipal Elections," stated Chief Minister Sri Nijalingappa, addressing an election campaign meeting organised by the local Congress party at the Town Hall last evening.

The Chief Minister asked the audience to consider the views and the polices of the organisation as such while voting and not the individuals who contested on behalf of the party. Referring to indpendent contestants, he said, that it was perhaps only in India that Independents contested for elections and not in other countries. They had no place in a democracy like India since they had no party principle.

Sri Nijalingappa requested everyone to support only Congress which was strong and capable of running the administration safely.

Earlier Sri K. S. Suryanarayana Rao, City Congress Secretary, welcomed the Chief Minister.

NO CHANGE IN PAK.'s ATTITUDE TO INDIA

The Pakistan High Commissioner, Mr. Mian Ziauddin, now touring in Kerala, said in Trivandrum yesterday that there would be no change in Pakistan's attitude towards India as a result of the change in the Government. The stand taken on the Kashmir was a national stand and not of any individual, party or Government.

He further said that 'the adamant attitude of India over Kashmir question' was resented to by the people of Pakistan. To a question whether if he would favour direct negotiations on Kashmir, he said he, would advocate any reasonable method.

As far as Pakistan was concerned, they would do everything possible to co-operate with Dr. Graham, he said.

Regarding the political instability in his country, he stated "With you, your national leaders are still living. But with us at least two of them passed away and we have not been able to replace them." Citing the example of France, he said, that this type of instability was bound to occur in a democracy. But, he added, the man in the street was not concerned about the political changes that were taking place in the country.

Centre To Supply Rice For One More Month

GOVT. TO BUY 50,000 TONS PADDY

Bangalore, 19

The State Government have decided to purchase 50000 tons of paddy during the current harvesting season in order to build up buffer stocks.

Stating this the Minister for Revenue, Sri M. P. Patil who had talks in Delhi recently, said that the Centre had decided to continue the supply of rice to Mysore for one month, till the end of January, 1958. The supply would consist of 3000 tons-2000 tons coarse rice and 1000 tons fine American rice. If necessary it would supply wheat also, he said.

The Minister said that the price of the new crop rice in the open market was now more or less equal to the issue price of rice at Government fair price depots. As the rice position had shown considerable improvement, the fair price depots would be run only for three or four months, and a large number of depots would be closed down except in urban scarcity areas.

Sri Patil also stated that the Government of India had decided to regulate trade in foodgrains and a foodgrains licensing order would be issued shortly.

The Minister appealed to consumers of rice to buy their requirements in the harvest season as that would considerably lessen pressure on the Government during the lean days.

More Import Of Food Grains

The Central Government had made fresh arrangements for the import of seven or eight lakh tons of wheat from the United States and were negotiating with Canada for the purchase of two lakh tons of wheat, stated Union Food Minister Sri Jain in the Rajya Sabha yesterday, speaking on the food situation in the country.

Sri Jain warned against any tendency to go on depending on food imports for all times and urged united efforts of the people and the Governments to increase production internally.

The Food Minister striking an optimistic note about the possibility of increasing food production, avoiding wastage and maintaining a stable price structure through controls on the distributive system, said that if only consumption of food grains went down by one ounce per day the whole of the food deficit could be washed out. An additional production of 5 per cent would help elimination of imports.

A motion for consideration of the food situation along with an amendment to take all suitable steps to increase food production was passed.

WOMEN DELEGATION FROM RUSSIA

At the invitation of the All-India Women's Conference a delegation of women left Moscow yesterday for India by air.

Referring to the restriction of use of rice in Bombay State, Sri Patil said that such a situation might not arise in Mysore. However they might have to enforce 'no waste of food campaign.'

RAJAJI PLEADS FOR RETENTION OF ENGLISH

Sri C. Rajagopalachari, speaking on 'the English Language' at Madras last evening strongly advocated the retention of English as the official language of the Union Government and stated when the language was very useful and necessary and when it had served very well during a long period, they should not go in for a change to Hindi in a hurry without showing why the change was necessary.

He said that there was no alternative language to replace English. If the alternative language was good in all respects, historically as well as in current experience, he would have unhesitatingly accepted it. None of the languages was suitable or convenient as English. "English is as much our language as that of the British, once we have learnt it and used it for 150 years. In order to spite England, have we to cut off our nose," he questioned.

Improper Supply Of Water In City

Mysore, Dec. 19

Just on the eve of the elections to the City Municipal Council, the whole City is put to hardship due to improper supply of water.

For the past three days in almost all parts of the City housewifes are wandering from tap to tap, from well to well, right from early morning to collect a pot-full of water. Recently the Municipal water works laid out new pipe line to Mysore and infact the water-flow in the pipes was very good and the people were happy about it. But all of a sudden the supply has become most irregular. If the authorities are approached, some say that the supply would be restored immediately. Some others say that it would take some more time to relieve the City from the scarcity of water, as in the Vanivilas Water Works there is 8-foot thick silt covered and that is being removed.

The common man does not know to whom he should complain, as the Councillors are busy with their canvassing for votes, whereas the Municipal Office is over working due to election pre-arrangemeuts.

Oh, Citizens of Mysore, exercise your franchise to elect your City Fathers first. Do not worry about water !

COMMUNISTS CONDEMN D. K. AGITATION

The Tamilnad Provincial Special Conference of the Communist Party of India has strongly condemned the communal activities of Dravida Kazhagam and its leader Sri E. V. Ramaswami Naicker. It has charged the Kamaraj Government of Madras with affording all encouragement to Sri Naicker.

In its secret session in Tiruchirapalli, the Conference in a resolution stated that the agitation had taken uncivilised form of attacking a particular community. Instead of abolishing the caste system these fanatic acts would have the effect of stirring communal feeling creating a communal war. Mr. Naicker had been supporting the Madras Governor for the sole reason that it was headed by a non-Brahmin. The resolution stated that the Congress and the Government of Madras under the leadership of Sri Kamaraj had been mainly responsible for the spread of this movement.

Legislation For Food Production

Mysore Agriculture Minister Sri H.S. Rudrappa has condemned the tendency among farmers to get rich quickly by growing cash crops to the detriment of food production and stated that unless they took to food crops, the situation might grow worse.

Speaking at Perumbavoor in Kerala, the Minister said that the farmers should be persuaded to take to food production, but if these methods failed, then Government should resort to compel them.

Regretting that farmers were not getting out of the soil all it could give, Sri Rudrappa said that there should be legislation to take away lands from people who did not make proper use of it. It was, he said, deplorable that even small landholders were not making proper use of their lands.

PORTUGUESE SHOULD LEAVE GOA

The country was too poor at present to be a welfare State like U.K. India, he said, was moving in a right direction in the attempt to give education to all children because education was essential for working a democracy and to become a great nation, which he felt India would be.

Nehru Deplores Language Agitation

Prime Minister Nehru while speaking at the Writers' Conference at Calcutta regretted that in South India 'eminent people whom I respect and whose advise I take' were becoming frightfully excited and hysterical' over the official language issue.

'No problem' the Prime Minister said,' can be solved by excitement and hysteria. I am astonished that the issue is being treated as though it was an attack to repel which, it is necessary that people should pour to join the colours.'

Expressing inability to understand what the attack was, Sri Nehru stated that it was bad enough when youngmen formed Councils of Action. It was shocking when, older people 'wise men who normally have shown restraint' did the same.

It was utter nonsense to imagine, Sri Nehru said 'that the Hindi-speaking North is bearing down on the South. People who imagine this are like Don Quixote, tilting at windhills.' The idea behind recognising Hindi as the official language was to run all-India services in Hindi replacing English, he said.

EQUAL REPRESENTATION IN CIVIC BODIES

Mrs. Lakshmi Menon, Union Deputy Minister for External Affairs, has urged that women should be given equal representation with men in the civic bodies in the country.

Nijalingappa-Channiah Rift

LEADING TO CRISIS IN STATE

'A ministerial storm seems to be brewing in Mysore, although only the next few weeks will show whether it will blow over or result in reshuffling of Ministry', reports a leading Madras Daily.

The report says that On Dec. 31 the State Chief Minister Sri Nijalingappa met the Congress President Dhebar at Delhi and discussed matters relating to differences between the Ministry and the MPCC Chief Sri Channiah.

'As a result of the latest group alignments in the Congress, a new alliance between the former Chief Minister Sri. K. Hanumantniah)and the M.P.C.C.Chief is stated to be emerging which must cause concern to the Nijalingappa Ministry.'

'It is alleged that there has been increasing interference in the day-to-day affairs of the Ministry from P.C.C. President and 'king-makers of the organisation' are stated to be exploiting the present situation to bring about Certain ministerial changes.l

'Even the recent divergence of opinion between the Governor and the Ministry over the Dasara Celebrations is understood to have been brought by local Congress leaders fishing in troubled waters. This matter has however been patched up by the intervention of the Union Ministry, which has given appropriate advice to parties concerned' writes the paper.

The paper addes that the P. C. C. Chief Sri Channiah might be invited for talks by the Congress President Sri Dhebar.

Official Language Contraversy

Prime Minister Nehru has appealed that the Hindi issue should be approached calmly without excitement.

Speaking at Delhi, the Prime Minister said that the question could only be decided in a friendly, co-operative atmosphere.' It is neither possible nor desirable for any imposition of any decision by the north on the south or by the south on the north,' he added. He stated that a decision which was agreeable to the great majority of the people in the north and the south had to be evolved.'

Asked for his views on the deadline of 1965 for replacement of English, Sri Nehru said 'I am not rigid about these matters. I attach far more importance to co-operation and unity as well as other matters and not to rigidly following any pattern simply because it is logically correct in my mind. I am prepared to give up logic for more important reasons where it is necessary.'

Mysore Chief Minister Sri Nijalingappa speaking about the question of Hindi as official language, said yesterday at Bangalore, that he was only supporting the move for postponement of its introduction purely for practical purposes and that he would never subscribe to the view that Hindi should not be the official language. As far as Mysore was concerned, Hindi was not much of a problem. It was also true of Andhra. The difficulty had been expressed in Madras State and hence they took the decision for continuance of English even after 1965, he said.

ANOTHER DEPUTY MINISTER

Sri R. M. Hajarnavia, M. P. has been appointed as UnionDeputy Minister.

No Rift With State Congress

Bangalore, Jan. 3

Chief Minister Nijalingappa denied yesterday reports that there was a serious rift between the ministerial and organisational wings in the State leading to cabinet crisis. He characterised the reports in some papers as 'very imaginative' and wondered how the authors of those reports got that impression.

He said that there might be differences, which were common and there was nothing unusual which called for featuring in the press.

CUT IN STATE'S PLAN

Bangalore, Jan. 3

Chief Minister Sri S. Nijalingappa has expressed a mixed feeling of dissatisfaction and hope over the reduction of the State's Plan allotment for 1958-59 by the Planning Commission.

Speaking to pressmen after his return from his recent visit to Delhi for talks in connection with the Plan, the Chief Minister said that there was hope because of the 'silverlining' that if the State were to keep up a proper rate of progress in implementation of works, the commission would reconsider the allotment and restore the cut of Rs. 3 crores.

Sri Nijalingappa however asserted that this cut would not make the State go slow in the implementation of any scheme. According to the State's calculation, he said, they had fixed Rs. 40 crores for undertaking schemes and programmes for 1958-59. But in view of stringency of foreign exchange and limited resources available both at the Centre and the State, they brought it down to Rs. 35 crores. But again due to various difficulties, it was brought down to Rs. 28 crores by the State. But at the final meeting of the Planning Commission the amount was reduced to Rs. 25 crores, he said.

PLAN HAS NOT REMOVED ECONOMIC DISPARITY

Sri R. K. Patil, former member of the Planning Commission has said that the First Five Year Plan had not succeeded in removing economic disparity among the people. It had only created a sense of frustration in them and made them more dependent on Government to solve their problems, he added.

Speaking at a gramdan seminar at Hyderabad, Sri Patil said that today Bhoodan was superior to the five-year plans in solving the problems of the people.

The ultimate object of the gramdan movement, he said, was abolition of private property in all sectors of economy.. The gramdan idea was meant to cover not only the land sector. It had to be extended to the industrial and other sectors also, he added.

D. M. K. DEMONSTRATION BEFORE NEHRU

CROWDS TEAR-GASSED AND LATHI CHARGED: SEVERAL ARRESTED

More than 20,000 Dravida Munnetra Kazhagam demonstrators pelted stones, brickbats and other misciles on the police transport vehicles and shop windows, just before the arrival of Prime Minister Nehru in Madras, which resulted in creating a scene of two hours' reign of terror last evening in the Mount Road. Half-a-dozen buses were set to fire. Mounted police and rounds of teargas shells could not disperse the determined crowds which were waiting to demonstrate before the Prime Minister.

The Police lathi-charged the riotous crowds and fired tear-gas shells in four places and made a number of arrests.

Over 2000 volunteers however succeeded in staging a black flag demonstration against Prime Minister when he arrived in Madras. The demonstrators who were standing opposite to the Airport with black flags asked Sri Nehru to go back.

Several people suffered injuries.

Several arrests were made including the film stars M. G. Ramachandran and S. S. Rajendran.

Teachers' Role In TrainingStudents

Mysore, Jan. 7

In order to make the students desirable individuals in the country the teacher should train them on the lines of discipline, politeness, tolerance, courtesy and good manners to build up character, stated Smt. Grace Tucker, Deputy Minister for Education, while inaugurating the State Seminar of Headmasters and Educational Officers here at the Maharaja's High School yesterday.

She said that technical efficiency of our students had to be improved and a greater emphasis on crafts and technical work should be laid, so that the pupils could develop an integrated personality. Teachers had to fight against ignorance and social evils.

When once the teachers start work they should think of future and build well to bring happiness to the country. They should train their boys to become useful citizens in a democracy. She further added that the teachers should be a liasion between parents and children. They should teach them subjects which had to bear some relation to life as such. The school formed a teaching laboratory and the teachers and headmasters had a very important role in these laboratories, she stated.

Referring to the present talk on basic education, the Deputy Minister said that the present system of education was not what it should be and was not in line with the existence of the community. So the teaching staff should realise a change in the system and bring about a revolution.

Sri Vasudeviah, Deputy Director of Public Instruction welcomed the guests.

LANGUAGE DECISION A FLEXIBLE ONE

Prime Minister Nehru stated again in Madras yesterday that whatever decision was arrived at in the matter of an all-India official language, it should be "a flexible one", and shall be such as "will not create any kind of disability for people of any part of the country."

Inaugurating the publication of the fifth volume of the Tamil Encyclopaedia by the Tamil Academy, he said that he could understand the argument that since English was the most widely spoken language in the country, it should continue to be the official language. But, he stated, it had been agreed in the Constitution that Hindi should replace English in due course.

He said "language is a very tender plant, intimately bound up with emotion of the people. So any decision taken in the matter should be without rigidity and with a large measure of common consent. The real break with English is that it would hereafter yield its place as medium of instruction to the several regional mother-tongues in the country."

"We should give opportunity to every child to learn in its mother-tongue even if it lives in areas other than its own regions," he pointed out.

The meeting passed resolutions embodying the following recommendations—that serious thought needed to be given to the question of taking measures for doctors and health workers to work in the rural areas;

State Governments should take necessary action for the implementation of the malaria eradication programme; more thought to be given for disease control programmes like those of T. B., Leprosy, Filariasis and V. D. as they have not been to expectations;

KEEP SCIENCE AWAY FROM COLD WAR—NEHRU

Inaugurating the 45th session of the Indian Science Congress in Madras yesterday Prime Minister Nehru called upon the scientists to keep science apart from political conflicts and cold war. He appealed to them to develop the qualities of compassion of saints and wisdom of sages.

He said that the tremendous power which science and technology gave to man could be misused for evil purposes and mass slaughter and it was upto the people to make proper use of science. It was no good blaming science, as science, like truth was neutral. Being neutral agents, the scientist should develop the qualities of compassion of saints as otherwise they were not fully grown as human beings He suggested to the Congress to establish a section for scientific research in human mind and human spirit.

Referring the country as such, the Prime Minister said that India was a large country and in most things people adopted extreme attitudes. They functioned sometimes in a way which was a common custom a couple of thousand years old. Every century was represented in India somewhere or other including the latest present. People talked of latest techniques and scientific discoveries. Indeed Indian scientists were successful in their pursuits. Yet some of the practices in the country were far remote from science.

He stated that the question of advancement of science depended upon the encouragement which the State gave to science and scientists and upon the feeling that science was of vital importance. Not only science as such was important, but the temper and spirit of science was important. They must be given an important place in the political, social and economic structure of the country. Scientists should not be considered as some kind of camp followers of some concerns, but they should be duly honoured, he emphasised.

Referring to the Plan, he said that the country had to struggle hard for its implementation, though it was a hard job and it could be achieved by what might be called scientific and logical approach.

Over 60 foreign scientists and over a thousand Indian scientists are participating in the Congress.

PLACE OF REGIONAL LANGUAGES

The members of the Committee of Parliament on Official Language met at Delhi and had detailed discussions. They were unanimous in urging that regional language should replace English as the official language at the State level and Hindi as the official language of the Union according to a phased programme. Several speakers expressed the view that regional languages should be the medium of instruction up to the highest level, and also the language of the High courts.

It was generally agreed by the speakers that 1965 need not be treated as a rigid dateline for complete change-over from English to Hindi as the official language of the Union and the important thing was to devise a suitable phased programme which should be followed hereafter.

RICE PRODUCTION IN INDIA

Of the 7000 botanical varieties of rice known in the world, 4,000 are grown in India. Nearly two-thirds of the annual rice production is retained by the producers for domestic consumption, barter sales, seed and payments in kind, releasing only one-third for the market.

More than 90 per cent of the rice grown is consumed in various cooked preparations, the bulk being eaten in the form of plain boiled rice.

The yield in India is very low; although with 75 million acres, which is about a third of the world acreage under rice India is the largest rice growing country in the world.

The average yield in India is 772 lbs. per acre of clean rice as compared to 3,234 lbs. in Spain, 3,105 lbs. in Italy, and 2,251 lbs. in Japan. Main cause of such a low yield is the dependence of the crop on the vagaries of the monsoon; only about 25 per cent of the area under rice has protective irrigation.

Battle Against Poverty

Prime Minister Nehru told a labour rally yesterday at Pragjyotishpur that India had launched a battle—not against any country—but against poverty and any strike or hartal by workers would hamper the execution of the development plans and affect the battle against poverty.

Call For Priority For Basic Education

The Subjects Comittee of the Congress yesterday unanimously adopted a resolution on educational reconstruction calling for priority to basic education and the raising of the standards and status of teachers.

And so it was decided to introduce basic education as the future pattern of primary as well as secondary education. This would improve the economic and social education of teachers also, he said.

Seconding the resolution, Mrs. Indira Gandhi attacked the present system on education as 'regimented'. She said much progress had not been seen under education during the past seven or eight years and basic education had not been given a fair trial.

DHEBAR'S CALL TO CONGRESSMEN

Congress President Sri U. N. Dhebar has called upon Congressmen in all walks of life 'to break the distance between profession and practice' and urged them to speed up land reforms in the country before the end of the Second Plan.

In his presidential address to the 63rd session of the Indian National Congress on Saturday at Pragjyotishpur, Sri Dhebar said that this would work a revolution in the minds of the people and produce 'deepest loyalities that money cannot purchase, the bullets cannot pierce and bombs cannot destroy.'

The President recalled that the Congress had in its election manifesto made many promises to the nation and it was the duty of the Congressmen to work for all that it had promised. He was saying this, Sri Dhebar said, because he saw in every step fallacious beliefs growing in India about democracy.

'Self-discipline is the acid test of faith in domocracy. Because discipline is not imposed, it demands greater vigilance. The second condition of democracy is the sense of quality. There is no room for gradations in social status. Casteism, communalism, provincalism and all other sect-ridden influences have got to be rooted out if the plant of Indian democracy is to flourish to its fullest growth. Another condition is the respect for the rights and the views of others. This is the soul of democracy. We may not always agree, but we have a duty to listen respectfully to others. This assurance is the arch on which the edifice of peaceful evolution of the society rests', he said.

In Delhi, the Women's Protection League (Nari Niketan), set up in February 1950, as the local branch of the Association has restored 302 of the inmates to their parents or guardians, given training or education to 66 and arranged marriages for 45.

There are nearly 10 such rescue homes, the first of which came into existence in 1908. These homes as well as the Salvation Army Home and the Fendal Home have rescued a large number of women through marriage or employment.

Parliament has also passed the Suppression of Immoral Traffic in Women and Girls Act.

There is a provision of Rs. 10.5 crore for after-care and social and moral hygiene programmes in the Second Plan and the target is 80 homes and 330 district shelters.

KANNADA AS STATE OFFICIAL LANGUAGE

HINDI SHOULD BE TAUGHT IN REGIONAL SCRIPT

Dr. V. K. R. V. Rao, Vice-Chancellor, Delhi University, has suggested teaching of Hindi through the regional script as it would then be easily understood and followed by non-Hindi speaking people.

Speaking at a function at Allahabad Dr. Rao said that the unity of India could not be retained unless there was one common language, which could be understood by masses in the country. That common language could only be Hindi as it was the language of the largest unit of the country, he added.

Dr. Rao said that in his opinion the medium of instruction should be the mother tongue upto the university stage. In the university one should be in a position to read, understand and write English and Hindi. There should be no hesitation in accepting English technical terms, he said.

No Government In Pakistan-

Ch. Mohammed Ali

Chaudhry Mohammed Ali, fromer Prime Minister of Pakistan said yesterday that there was virtually no Government in Pakistan nor any honest administration at present.

Speaking at Rawalpindi, Mr. Ali said that the political situation in the country had deteriorated to such an extent that at the formation of every Government (so far eight Goverments have been formed), people talked about its fall and asked whether that Government would last for sometime.

He accused Pakistani politicians adopting dishonest means to attain power. For every vote in the legislature, licences and permits had to be distributed. During the past 10 years some had become fabulously rich. Prices of necessities of life had risen several times, and the poor had become poorer. There was acute shortage of food in Pakistan. This was not because of floods, failure of any monsoons or any other such causes, but to the failure of the Government to set matters right in political wranglings, he said.

ALLOTMENT TOWARDS PLAN

This outlay is about Rs. 100 crores more than the estimated actual expenditure during the current financial year and Rs. 200 crores more than the first year of the Plan.

Raise National Character

GOVERNOR'S CALL ON REPUBLIC DAY

Bangalore, Jan. 26

'Nobility of life, freedom from jealousy and rancour, respect for Truth and refusal to succumb to evil temptations of bartering away ultimate good and sacrificing truth and uprightness for the sake of power and position, are the qualities that are most needed today. Only these will raise the national character. It is by these things that we shall be judged' observed Sri Jayachamaraja Wadiyar, Governor of Mysore here this morning in his speech at the Ceremonial Parade in connection with the Republic Day celebrations.

Paying a great tribute to defence forces the Governor said that the Indian Defence forces had a worthy record and a noble tradition to follow.

His Highness said that this day in addition to being a historic Day was a 'holy day on which in a spirit of devotion to the motherland we offer a pledge of loyality and service. We as a Nation whose architect was Mahatma Gaudhi have to cleanse our hearts of unworthy motives, which will lead us to numerous errors from the coils of which we might find it very difficult to extricate ourselves.'

Speaking about the Second Five Year Plan, the Governor said that the schemes of the Plan were being hammered into shape. Numerous scientific Laboratories had become busy beehives. Technical advancement was in a rapid stride.

★ The Government of India have drawn up a scheme for suitably rewarding those who contribute to the research in Sanskrit, Arabic and Presian with a view to promoting the development of these classical languages.

The philosophy of economic and social resolution was receiving a re-orientation in consonance with India's ancient cultural tradition in the hands of Acharya Vinoba Bhave. The problems that faced us might unnerve us but it was upto us to face them as a challenge. 'Let us therefore pull together and pull this chariot of India towards the goal and a consummation that was devoutly wished for all the teeming millions of this great India,' he added.

Work For Establishing Rama Rajya-

NIJALINGAPPA

Bangalore, Jan. 26

Chief Minister Sri S. Nijalingappa called upon everyone in the country to determine work for establishment of Rama Rajya as desired by the Father of the Nation and to renew the pledge for striving sincerely for that purpose.

In his Republic Day message, Sri Nijalingappa said that this was also a hallowed day for remembering and paying homage to all martyrs who sacrificed their lives in the cause of the country's freedom and to pledge themselves to work for the unity, integrity and progress of the country.

Referring to the progress made since independence, the Chief Minister observed that although there remained much to be achieved by them, their achievements in the international field was a matter of great pride for them.

As far Mysore was concerned, Sri Nijalingappa said that the new Mysore State was now making a steady progress in various fields. He hoped that cordial relationship between the people and Government would grow from strength to strength.

NEED FOR INTELLECTUAL FITNESS IN VARSITIES

Bangalore, Jan. 26

'Intellectual fitness is as necessary in the University as physical fitness in the army, and there is no compromise possible on this question. Everyone who enters a University should fit for the course to which he is admitted, otherwise there would be a regrettable waste of both the youth and the wealth of the country' observed Sri Jayachamaraja Wadiyar here yesterday.

The Governor was inaugurating the Demond Jubilee celebrations of St. Joseph's College.

Commending the services of the Christian Missions in the educational development in our country, His Highness said that the St. Joseph's College was an impressive memorial of the labours of these Missions in this field of our national progress.

Speaking about education in the present day set up, the Governor said that education had to produce men and women of ability, knowledge and wisdom, capable of striking a just and practical balance among the hundred complicated things that make even simple duties difficult in this fast-moving age. The smooth and simple sequence of school, college and Government service which characterise the educational life of former generations was no longer possible or sufficient. It was neither practicable nor desirable that all who emerged from the secondary school should find their way into the University. Nor was it economical of the Nation's wealth or talent for a young man to take a costly Science degree as a prelude to clerical or commercial employment for which is was not necessary. Too many youngmen find their way into the colleges, particularly into the science courses, who could with better advantage be fitted into more congenial and profitable places, he observed.

The University should aim, the Governor said, at imparting sound education of a decent standard to those who were equal to the task of learning and were thereby reasonably likely to benefit themselves and the country. Equally imperative was the need for the maintenance of the highest possible standards of discipiine. If our democracy was to suceed and earn a reputaion, for order and enlightenment, young and old should both confine themselves habitually to friendly and peaceful modes of thought, and constitutional methods of action, he added. He hoped that our universities would continue to maintain the highest traditions in these matters and help the nation along on the path of progress.

WELFARE OF CHILDREN

Bangalore, Jan. 26

Laying the foundation stone of Dr. M. G. Seshadri's Child-Proplactic Clinic and Nursing Home' here yesterday His Highness Sri Jayachamaraja Wadiyar stressed the need for welfare of children which was of the first importance in any society.

The Governor said that a healthy and happy childhood was the birthright of every child and any society that had the wisdom and resource to ensure this was securing its own future soundness and solidarity. It must be borne in mind, he observed, that wealth by itself had little to do with health and happiness. The essential need was health-its protection and promotion and its restoration in cases where it was lost or impaired, he added.

PRESIDENT'S CALL FOR MORE FOOD PRODUCTION

President Rajendra Prasad told the nation that self-sufficiency in food was a task to which every Indian must address himself.

In his broadcast on the eve of the Republic Day, on Saturday last, the President urged those employed in agriculture to do their best to get the maximum yield from land and those who followed other avocations to observe austerity in the use of foodgrains, changing their food habits where necessary so that the needs of the various regions in India can be met and proporly adjusted.

Pointing out the grave food position in the country, Dr. Prasad said, 'the very idea of having to import large quantities of foodgrains from foreign countries piques us and gives a setback to our planning as a whole besides putting a terrible strain in our foreign exchange resources'.

He reiterated the nation's determination to find way out of the difficulties inherent in the phase of development and said 'god willing we succeed in implementing the Second Plan.'

The President reaffirmed the nation's faith in democratic way of life and said 'nothing can deflect us from our resolve to follow this path we have chosen for ourselves.' 'We are determined to give effect to our decision to reconstruct our society and that in a way not incompitable with the liberty and dignity of the individual,' he added.

NGOs To Observe 'Protest Day'

The Southern Non-Gazetted Government Officers Federation which met at Madras yesterday decided to observe March 19 as a 'Protest Day' to focus Government's attention to its demands.

Delegates from Mysore, Kerala, and Andhra Pradesh attended the conference.

Madras Finance Minister Sri Subramaniam who addressed the meeting requested the NGOs not to go to the extent of doing anything that would paralise the administration, while making even their just demands. The root cause of the NGOs problems, he said, was the spiralling of prices, which could be overcome by the successful working of the Plans. The State Governments, the Minister said, could not solve the NGOs problem without aid from the Centre. Attempts were being made to make this a national problem wherein the Centre would be bound to participate, he added.

Divergent Views On Plan

Bangalore, Jan. 27

Sri V. P. Menon, Former Secretary of the Uniod States Ministry and Sri S. V. Ramamurthy, adviser, Planning Commission expressed divergent views on the current trends in Indian affairs and the country's progress, at a Republic Day function here yesterday.

Criticising the Central Government's approach to planning and in shaping her foreign policy besides dealing with the Kasmir problem, Sri Menon described the Second Five Year Plan and States Reorganisation as 'collossal blunder of the greatest magnitude.' The First Plan, he said, had proved good in parts and on that basis the Second Plan had been framed. That had resulted in a taxation policy which had gone too far causing discontent in the people besides snapping the middle class and depriving its initiative. The reorganisation of States after the integration of the India States, Sri Menon said, had proved disastrous results. The Centre should have waited and consolidated its position for atleast 10 years.

Sri S. V. Ramamurthy, on the contarary said that he was closely associated and more keenly watching India's progress for the last 10 years and he was full of hope and confidence. Planning was the best Pandit Nehru had done. The only strong country in the South-East Asia was India, a country where people should feel proud to live, he said.

Respect The Tiller Of The Soil

Union Vice-President Dr. Radhakrishnan pleaded for the development of a 'new temper' in which the tiller of the soil was treated with respect and was given the enthusiasm by which he would be able to produce more. 'The tiller must know that he is contributing to the rebuilding of the country as much as the politician who talks a great deal and the legislators who pass all sorts of laws.'

Speaking at the Golden Jubilee celebrations of the Government Agricultural College at Poona, Dr. Radhakrishnan said that agriculture was the basis for any kind of development of human culture. Without agriculture there can be neither industrial progress nor commercial inter-course. It is therefore in the fitness of things that agriculture should be taken as the prime interest,' he said.

The Vice-President called upon the people to subordinate themselves to the larger interest of the country. The people should solve their problems in a spirit of dedication. Their loyalty should be the progress of the country, he added.

Role Of Rotarians In World Peace

Mysore, Feb. 1

Governor Sri Jayachamaraja Wadiyar paying tributes to the work of Rotarians in the cause of world peace and understanding said that Rotary recognised no frontiers in its scheme of organisation. 'It has been described as a universal association of men of goodwill, consisting of all professions, with all shades of opinion, inspired by an ardent desire to serve society above self.'

The Governor inaugurated the Conference of District 320 of Rotary International here this morning at the Sports Club.

His Highness said that the ideal of Rotary was to promote contacts based upon understanding, reciprocal esteem and constructive friendship between men engaged in the most diverse human activities. Aminated by such an ideal, he said' you have tried to establish across national boundaries, between men of different nations and various languages, of devergent aspirations and varied relations, the foundation of esteem and friendship.

'You as Rotarians and all of us in general have a personal responsibility in international service because international understanding, goodwill and peace must begin on a human basis. Rotary, the Governor said, had long been in the forefront to educate people with the understanding necessary for world peace.

Speaking about the Rotary Foundation Fellowship Programme, His Highness suggested the desirability of setting up a similar fund and organising a similar scheme for the promotion of inter-state understanding, which would be a new venture with a promise for the future.

Pandemonium In Municipal Council

Mysore, Feb. 1

Pandemonium prevailed in the Municipal Council meeting yesterday which began at about 4 in the evening and ended at about 11-20 in the night. Though the members sat for over 7 hours very little business was turned out. At every stage the Opposition members went on heckling the President Sri Narayanaswamy on one point or the other.

At the beginning the Opposition leader Sri Noor Hussain brought in a privilage motion on the arrest of two Municipal Councillors-Messrs T. V. Srinivasa Rao and Srikantha Sarma (in connection with the Socialist Satyagraha) stating that the Police attitude should be condemed as it interfered with the prestige of the house. There was heated discussion on this motion. The President ruled out the motion stating that it did not form a part of the Council's affair.

An official resolution requesting the State and Central Governments to continue supply of foodgrains through fair prize depots was unanimously accepted.

Again during the question-hour the tempo of the Council went so low that several times the President had to call the members to their attention. When the interpellation regarding the use of President's car was taken up most of the Opposition members, questioned the President on several points and the discussions took an ugly turn in exchange of hot words between the Congress and Opposition members. Words like 'Shame, meeting is a fish market, prestige of the Council is lost on account of the Opposition' were heard. The President finally adjourned the meeting to Feb 7 after requesting the members to maintain the prestige and dignity of the Chair and of the Council.

STRIVE TO ROOT OUT SEPARATIST, REGIONAL AND COMMUNAL TENDENCIES

SETALVAD'S CALL TO THE YOUTH

Mysore, Feb. 1

Sri M. Setalvad, Attorney-General of India called upon the youth to strive its utmost to root out from the country all separatist, regional and communal tendencies and give birth to an active living and militant Indian nationhood.

He appealed to the youth of the nation "to do their utmost to remember that they are all the sons of one motherland and that the claims of our country to our loyalty are paramount. We can survive as a nation only if we are able to build and sustain a truly patroitic and wide-based Indian Nationhood", he said.

Sri Setalvad, was delivering the address of the 38th Convocation of the University of Mysore, this morning here at the Crawford Hall.

Paying tributes to Mysore State Sri Setalvad said that Mysore State had been made by a succession of able administrators a model for other parts of India to follow in sevaral matters like education, public works and engineering schemes.

Speaking about the dawn of independence and the present day affairs in the country, Sri Setalvad said that the great revolution which brought us independence and launched us on the path of a social State was peaceful and and silent. But for the suferring misery and carnage caused by partition and what followed in its wake, one would hardly had realised the great change that came over our country in 1947. The ideal of a social welfare State set forth in our Constitution had given a complete change by legislative and administrative measures in many fields. Hundreds of tasks face the country and voluntary efforts by the citizens were essential to progress in all the fields. 'If every citizen regarded the affairs of his town, city, village or State as an affair of his own and exerted himself accordingly there is little doubt that the shape of things would be very different and our progress greatly accelerated. Unremitting toil for the weal of our motherland for many a year to come must be the motto of every youth leaving the University', he said.

Sri Setalvad referring to the States reorganisation, said that in a way it had deeply stirred on trivial issues. 'We became the instruments of the cunning politician hungering for office and the noicy agitator fomenting disorder', he added.

The Attorney-General pointed out that instead of conserving our resources and energy and forgetting all sense of priorities, we had in the name of these linguistic divisions frittered away a substantial amount of out time, strength, energy and resources.

Coming to the present day contraversial problem of language, Sri Setalvad said that English had grown into an international language. If India had to be one nation it was obvious that there must be an official language in which the different units constituting the country should be able to communicate with one another and with the Centre. It should be equally obvious that the official language can only be one of our Indian languages and not a foreign language. Hindi being an Indian language spoken by the largest percentage of the population would for that reason be the most suitable to be adopted as the official language.

But Hindi had yet to grow and develop and large masses of the population had yet to know it and get accustomed to its use before it can effectively take the place as the language of our official communications, our legislation and our law courts, "let us shake off our regional prejudices and linguistic predelictions and take the obvious commonsense view that we should carry on with English as long as necessary and gradually change over to Hindi, as Hindi grows and develops not forgetting that it was essential to do this as soon as practicable," he added.

In conclusion, Sri Setalvad hoped and trusted that the newer generation who had heard the battle cry of freedom would rise above the narrow and parocial views and lay the true foundations of a real and closely welded Indian nation.

U.S. LAUNCHES ITS FIRST SATELLITE

The United States launched its first satellite on Saturday last from the Cape Canaveral testing site.

This 30-pound sateilite carried by a Jupitar-C Rocket is travelling at some 19,400 miles an hour and completed its first circle of the earth 106 minutes after it was lanched. Though smaller than the Russian Sputniks, this satellite's life is expected to be between 2½ year and 10 years.

Scientists have said that the Satellite was sending signals which sounded like continuous musial tones, something like the dissonant sound of several piano keys being played simultaneously.

U. S. succeeded in launching this satellite exactly 17 weeks after Russin raised her first Sputnik.

This satellite was designed by Dr. William H. Pickering, Director of the jet propulsion laboratory of the Calfornia Institute of Technology.

Move To Abolish Cycle-Tax Turned Down

Mysore, Feb. 8

The Municipal Council voted down yesterday two resolutions one to abolish the license fee on cycles and another to abolish the post of the Vice-President.

The adjourned meeting was presided over by Sri B. Narayana Swamy.

Heated discussion took place on both the resolutions in the meeting.

Moving the resolution Sri M. N.Thimmaiah (U.C.P.) said that poorman's vehicle was taxed much whereas the rich man's cars were taxed less.

In a socialistic patern of society it was right to tax the rich and on the luxurious things. He said that the revenue of Rs. 40,000 derived from this cycle tax could be made over by efficient administration and putting down corruption in toll gates, and unnecessary expenditure in many fields like Sewage farm.

Messrs Mir Noor Hussain, Azit Sait and M. K. Puttiah supporting the resolution, pleaded for cutting unnecessary expenditure of tiffin, and other items. There were instances when President had to all the members to orders several times while heated words were being exchanged during discussions.

Then Sri M. N. Thimmiah moved another resolution for the abolition of the office of the Vice-President.

SriThimmiah said that Rs.5000 was being spent on the office of the Vice-President for no purpose. The Vice-President had no work to perform excepting signing student's application forms and so far there was no occasion for him to conduct the deliberations of the Council. Hence his office was serving no useful purpose to the people, he said. The resolution was rejected by 11-to 16 after a discussion of nearly an hour.

Later the Council was adjourned to Feb. 12 on the move of Sri A. Krishnamurthi Rao who stated that the President was not in good health and hence the Council should adjourn for a future date.

SEPARATE TAMILNAD MOVE DEPRECATED

'FOREIGN HAND' ALLEGED

Sri M. Ananthasayanam Ayyangar, Speaker of Lok Sabha deprecating the Dravidasthan movement declared at Madras that he saw a hidden hand somewhere behind the movement for a separate Tamil Nad which was terribly afraid that India was raising up so early and trying to hold the field in Asia.

Sri Ayyangar said that the idea of Pakistan and Hindustan was started somewhere in Cambridge. It was the business of Westerners to divide and rule. Today the literature for this movement was also being prepared somewhere there. The separate Tamilnad movement was a political stunt and the people here should condemn it.

Sri Ayyangar also criticised the campaign of Sri Rajaji for retention of English as the Union Official Language and said that it was a disgrace to ask English to be retained. He also criticised Dr. C. P. Ramaswamy Aiyar for his part in the language contraversy and described him as one responsible for starting trouble in connection with the accession of 500 and odd States in India soon after independence.

EXTENSION OF PRY. EDUCATION

5% SURCHARGE ON TAXES SUGGESTED

Dr. V. K. R. V. Rao, Vice-Chancellor of the Delhi University has suggested the levy of special surcharge of five per cent on all taxes both Central and States, if insufficient financial resources stood on the way of extension of primary education and making it free and complusory. The surcharge would yield, he said, Rs. 50 million and would go a long way to meet the difficulty.

Dr. Rao was presiding over the All India Primary Education Teachers Conference at Jadavpur (Calcutta).

ALL RESOLUTIONS OF OPPOSITION TURNED DOWN

Mysore, Feb. 13

The City Municipal Council voted down yesterday at its adjourned meeting a resolution which said "taking note of the alarmingly high prices of foodgrains prevailing in the City, the Council requests the Government to take immediate measures to check and bring down the soaring prices of food-grains forthwith."

Moving the resolution Sri T. V. Srinivasa Rao, (Civic Opposition Party), said that as a result of rise in price the poor was hit hard.

In order the bring down the prices he suggested that the banks should stop advancing loans to the merchants. Messrs : B. K. Puttiah, Noor Hussain, Sreerama Setty, Aziz Sait, M. N. Thimmiah and Vedantha Hemmige (opposition members) spoke supporting the resolution. They all stated that the present scaricity was artifical and was created by the merchants who hoarded plenty of grains.

The members from the Congress bench Messrs Chowdiah, Doddathimmiah, M. K. Lingiah, opposing said that due to the failure of rains the scarcity had arisen. The merchants did not stock much and the Government was taking all steps to reduce prices. So the resolution was unnecessary.

Finally the resolution was put to vote and was lost by 11-16 votes.

Yesterday was the day when the opposition brought in several resolutions and all were turned down by Congress whether they were good or bad. It seemed that both the groups were working in the Council with complete rigidity and the attitude was tooth for tooth and nail for nail. Whatever the Opposition brought, the ruling party ruled out and whatever the Congress wanted Opposition refused to accept them.

The other resolutions turned down by the Council were: discontinuing the practice of providing refreshments to the Municipal Councillors, reduction in the allowance given to the President by fifty per cent as a measure of austerity, abolition of taxes on cycles kept for private use in the City, opening of divisional offices in suitable places in the municipal divisions to fecilitate the people to get redressed their grievances, and to widen and improve the circle around the Dufferin Clock Tower by acquiring private buildings to the west and south-west of the tower.

All the resolutions were discussed for quite a long time and sometimes there were exchange of hot words among the members.

Finally after transacting some business, the Council was adjourned to Feb. 18.

★India, it is stated, may get another 50 million dollars (Rs. 26 crores) in economic aid from the United States within the next few months in addition to 225 million dollars in loans already offered.

Channiah's Call To Students

Mysore, Feb. 15

Students should be practical rather than having just bookish knowledge and they should improve their knowledge of worldly affairs, stated Sri S. Channiah, M. P. C. C. President here this morning. He was opening the Dining Hall and and Kitchen block of the Municipal Students' Hostel. This was constructed by Sri Chowdiah Municipal Councillor at a cost of Rs. 4500 and presented to the Hostel.

Sri S, Channiah further called upon the students to stand on their own legs rather than their parents. He said that just yesterday an important official of the Public Service Commission was telling him that the standard of Mysore students was going down when compared to the Madras students and this was a bad reflection on the State. He asked the students to be sincere in their studies and be disciplined and strive to become good citizens of tomorrow.

Thanking Sri Chowdiah for his donation, Sri Channiah said that wealth was not everything. People should earn more and should utilise that for the benefit of the humanity, rather keeping them for their children. He said that he felt sometimes himself 'selfish'.

Earlier Sri Chowdiah expressed that whatever he did it was very little when compared to people like late Amble Anniah Pandit, late Banumaiah and Mr. Ramaswamy and others. His feeling was to do as much as possible to the people and he would donate Rs. 10,000 more to construct a children's ward at Krishnarajendra Hospital if the Government also helped for it.

Earlier Sri B. Narayanaswamy, Municipal President welcoming said that 60 students were being provided lodging and boarding facilities free at this Hostel.

Development Of Co-Operatives Urged

Mysore, Feb. 20

Sri H. K. Veeranna Gowdh, Minister for Electricity appealed to the people, specially to the educated, to give more importance to the development of co-operation in all walks of life. He was presiding over the Silver Jubilee Celebrations of the Mysore Power and Light Co-operative Society held at Exhibition buildings last evening.

Sri Gowdh congratulating the Society management for running it so successfully since 25 years said that in Mysore State co-operative movement was initiated by His late Highness Narasimbaraja Wadiyar, Yuvaraja of Mysore in 1908. But it did not extend to all fields. During the last 40 years, many co-operative institutions, like multipurpose, banking transactions and agricultural purposes were started but most of them did not work well, due to various reasons.

The people should take it up voluntarily and work everything on a co-operative basis. Only then this movement would not only yield good results, but also would be beneficial to all, he concluded.

Inaugurating the Celebrations Sri K. Gurudutt, Chairman of the State Electricity Board, stated that in this department there was great deal of co-operation among the workers. The Board had always a sympathetic attitude towards the employees. The question of improving their amenities was engaging the attention of the Board always. Of course it was difficult for the Board to make the revenue and expenditure meet and its position was far from satisfactory. But, always it had the welfare of the workers in its mind, he assured.

He further said that much development was necessary in the field of electricity and more power should be produced to meet the demand. At present they had to impose some restrictions to cover up power shortage, he said.

Sri D. S.Srikantiah, President of the Society and Superintendent welcomed the guests. Sri S. Swamidas, Vice-President presented a report on the working of the society. The Minister distributed prizes to winners in various sports events.

Eschew Selfish Motives

Mysore, Feb. 20

Smt. Tripurasundarammanni, wife of the Governor opened the primary school building yesterday at Channananjayana Hundi, in Gundalpet taluk. The school building was constructed under the Community Development Block by Sri Kongalappa.

They had always in their mind the selfish profit motive. The spread of diseases' scarcity of food grains, the failure of rains and many brutal murders in the recent days were all the result of this growth of selfishness and untruth among the people, she said.

It was not the gaining of money which was everything, but people should go forward, take initiative in all constructive things and work for the betterment of the people, she added. Shecongratulated the people of this village for making it a model village.

Her Highness also appealed to them to build up the attitude of saving something in their earnings and contribute to the National Savings Scheme, thereby help build the country.

PLEA FOR DECENTRALISATION OF PLANNING AND FINANCING

Sri K. Santanam, former Chairman of the Finance Commission has suggested decentralisation to some extent of planning and financing.

Speaking at Madras yesterday, he said that it would be wise to progressively restrict the work of the Central Planning Commission to strictly Central enterprises and so far as State projects were concerned to have only general power of co-ordination. In the matter of finance also, the States should be encouraged and advised to raise their own resources for capital as well as revenue expenditure. Probably, the allotment of entire small savings raised in the State to that State and a share of the resources of the Life Insurance Corporation accuring from the State might meet the capital needs of the State, he added.

The present system of matching for innumerable minor projects was leading to waste and irresposibality. It the Centre can afford more funds it is better to give them to the State Governments and make them responsible for development of State subjects like education, health, and cottage industries, he said.

Water-Supply In City To Be Improved

Mysore, March 6

At the adjourned meeting of the City Municipal Council yesterday many Councillors again complained about the improper supply of water in the City and the increase of small-pox day by day. President Sri B. Narayana Swamy was in the Chair.

Sri Noor Hussain (U.C.P.) stated that the manner in which water supply was handled was bad In some areas, he complained, that water was supplied for 15 hours and in some others there was no supply at all. "Out of shere disgust I have to come to a decision to resign the Councillorship. "If you cannot run the administration properly give us a chance for a week we will solve the water problem and prevent epidemics" he challenged.

Sri T. V. Srinivasa Rao (U.C.P.) said that monkeys were a menace in Vidyaranyapuram. Mosquotes had also increased in number and no action was taken to check their growth.

Sri M. K. Lingiah (Cong.) stated that there were many bus and lorry accidents in the City and Traffic Police seemed to be not at all working.

The President replying stated that a special meeting would be called for shortly to discuss problems of water supply and small pox.

There were complaints by many Councillors on the collection of tolls and revenue, increase of mosquitoes and cases of Municipal shops being sublet in the City Market.

When the resolution on the improvement of water supply came up, the Assistant Engineer, of Water Supply Special Division, Sri Gundappa explained that there were several defects in the distribution of water supply in the City though 54 lakh gallons were being pumped everyday, In order to improve the position, he said, they wanted to divide the City into three zones. By the 10th of this month they would charge water in the new 16 inch pipe line in the Narayana Sastry Road and after that Chamarajpuram, Krishnamurthy Puram and Mandy would be taken up. Till then there would be some trouble in the water supply, he said.

Earlier when the resolution notifying the approval of the election of Sri B. Narayanaswamy as President and Sri D. Lingiah as Vice-President came up for general approval, the Opposition leader Sri Noor Hussain stated that Sri Naryanaswamy was a Congress Municipal President and hence 'We cannot recognise you.'

Sri Koutinho: (Cong.) "You must withdraw that. He (Sri Hussain) is very inconsistent."

There was shouting from both the sides and the President had to call the members many times to order.

Sri Hussain "There is no possibility of conceding. You are not treating us properly and there is no co-operation." Sri Krishnamurthy Rao. 'That should be withdrawn.'

However due to President's appeal the situation cooled down and further agenda was taken up.

Later the Council adjourned to meet-today.

Mysore, March 7

The United Civic Party in the City Municipal Council has decided to boycott the function arranged tomorrow to unveil the portraits of Sardar Patel and Sardar Kantharaje Urs at the Municipal Council Hall.

In a statement the Secretary of the party says that the Congress party in the Council had flouted all the protests of the Civic Party against the using of Municipality for the promotion of the party interests. He says "In this short space of two months the M.P.C.C. President Sri S. Channaiah has been a guest of honour of the Municipality on three occasions. While we have no objection to an invitation being extended to the Minister in his official capacity, we certainly cannot see the reasons and propriety of inviting the head of the Congress party. We are placed in an awkward and embrassing situation and the President has forfeited the confidence of the Council. This function is not a Municipal function and hence the U. C. Party disassociates itself by boycotting. We have great respect and admiration for the eminent personages whose portraits are to be unveiled, but we cannot see our way to allow the City Municipal Council to be converted into a Congress Kacheri," it adds.

OFFICIAL LANGUAGE CONTRAVERSY

IMPOSITION OF HINDI WILL CREATE DISUNITY IN INDIA-warns C. R.

The All India Language Conference which concluded its two-day session at Calcutta yesterday stressed the need for retaining English as the country's official language. It demanded an amendment to the Indian Constitution so as to provide for continuance of English as the Union Official Language without any time limit.

The conference was attended by several hundred delegates from all over India, the main participents being Sri C. Rajagopalachari, the eminent Jurist Dr. Radha Binod Pal, Master Tara Singh, Sri Frank Anthony, and Dr. Ratnaswamy.

Sri C.Rajagopalachari called upon the people to fight to the end "the injustice of discrimination in favour of Hindi." He called the Hindi fanatics to concentrate to their own States first and when they succeed there, then to think of other States like West Bengal or Madras.

Rajaji warned that the Hindi flag would create disintegration and disunity all over India. 'The unity claimed for Hindi is painted unity. Hindi is now planting seeds of disunity for the first time", he declared. Sri Rajagopalachari said that he never wanted English to be the national language of the country, but should be only official language at the top, which created unity between the people of the States all over India.

He said that it was essential to retain English language as the national medium in order to keep up with the tempo of modern scientific and technological advancements in the world.

Dr. Radha Binod Pal who presided over the convention said that "Hindi will not present to the world a good account of our national culture and certainly it does not enjoy any outstanding position compared with any other language of India."

PANDEMONIUM IN MUNICIPAL MEETING

PRESIDENT CALLS MEMBERS TO ORDER MANY TIMES

Mysore, Mar. 11

There was complete disorder and pandemonium for nearly ten minutes in the adjourned Municipal Council meeting today when the election of members to various committees was taken up by the President Sri B. Narayanaswamy.

At first Sri S. Sanjeevaiah (Cong.) was elected by 15 to 11 votes to the Managing Committee in place of Sri B. Narayanaswamy who became the President.

Later Messrs. Jogi Siddiah and Sri Chowdiah were elected to serve on the Excise Licensing Board, Sri Mariyappa on the Regulated Market Committee, Smt. Soundaryamma Venkatesh and Sri Chowdiah for Trust Board, Messrs Venkatalingiah and M. K. Lingiah for Beggar Relief Committee, and Messrs M K. Lingiah, S. Jogisiddiah, Chowdiah, Daulatrao, H. Kempegowda were elected to the City Poor Student Feeding Committee. All of them were Congress members and were elected by 15 to 14 votes.

The Opposition here suggested the names of several Congress members themselves to serve on the various Committees, putting the Congress into an embarassing position.

In fact when they suggested Sri Mohammad Yakub to serve on the Public Library Committee, the Congress voted it down by 15 to 14 and deferred the subject itself.

Immediately after this Sri NoorHussain, Opposition leader said that the attitude towards them had not changed even after two months and requested to give equal representation. 'If you don't want us, you don't take trouble, we will immediately withdraw, he said.

At this stage both the sides began accusing each other and there were shouts and exchange of words. There was complete disorder and pandemonium in the House. The President called the members to order several times.

Sri Hussain complained that the Congress had broken their hearts by electing their own people. "I do not know how we will work for four years together. You must have thought that it (Municipality) is your 'Jahagir.' Again the President appealed to the members to maintain peace and order.

Sri Krishamurthy Rao, Leader of the Congress Party stated that both the sides should work together by co-coperating. Since two months the Council had done no work by dragging on the meetings and no justice to the ratepayers was done. "We are fighting for party purposes here and I don't allow my partymen to reduce the prestiege of the house and request the Oppostion leader the same."

The President requested the members to proceed in a peaceful way. He said "We are here on behalf of the rate payers. They will have very little regard for us if we do not work properly", he said.

Then the house became calm and proceeded with the agenda for sometime till 1-0 p.m. The Opposition at this stage moved nearly six amendment motions to adjourn the meeting to different dates and the President had to put one by one to vote and finally it was decided to meet on March 25 at 4 p.m.

CITY MUNICIPAL COUNCIL URGES PROPER WATER SUPPLY

MORE STEPS TO PREVENT SMALL-POX STRESSED

Mysore, March 14

The members of the City Municipal Council, for the first time after the formation of the present Council in January last, sat in a very calm atmosphere yesterday and discussed matters and accepted unanimously resolutions moved by both sides in a very cooperative and cordial spirit.

A special meeting of the Council was held to discuss the prevalence of small-pox in the city and steps to be taken for its complete eradication and secondly the uneven water supply in the city, the hardships felt by the public and steps for proper water supply. This meeting was specially arranged at the request of the Opposition. The meeting was presided over by Sri B. Narayanaswamy.

At the outset, Sri Noor Hussain explaining the reasons for arranging this meeting said that more steps had to be taken for eradicating small-pox as well as diptheria. He said that these diseases were being spread from selling cut-fruits in front of schools and suggested the seting up Sanitary Police to check this menace. He also complained of 'Flu.

Health Officer Sri Anekar, detailing the work done for checking spread of small pox, said that so far 180,726 vaccinations had been done in the city out of a population of 2½ lakhs. He appealed every one to report such cases immediately to health authorities for taking suitable action.

Sri B. G. Das suggested compulsory vaccination.

Sri A. Krishnamurthy Rao congratulating the Health authorities for combating the disease complained lake of co-operation from the public.

Then the Council accepted unanimously the resolution moved by Sri Mir Noor Hussain urging the administration to take all preventive measures to eradicate the epidemic with all urgency and speed and to give the highest priority towards it.

The question of water supply was taken next. Sri Noor Hussain charged the authorities for uneven water supply in the city for the past two months. He pleaded for immediate steps for supply of water regularly. He stressed the need of stopping supply of water to the Government House where it was being used for lawns and plants. He urged the Council for setting up a high-level committee to negotiate with the State and Central Governments for getting more funds.

The Executive Engineer, Special Water Supply Division, Bangalore, who had specially come for the meeting, explained that the present difficulties in water supply was due to defective system in distribution. Only when gravity system was introduced, this scarcity would go. In order to ease the present situation, short-term programme had to be taken up, he suggested. Water should be supplied through lorries and at least 12 lorries were required and that he would be sparing four under his charge. He also suggested setting up of steel storage tanks in scarcity areas and metering houses.

Speaking about the Rs. 45-lakh scheme, the Engineer said that it was a long range programme and that they had already finished Rs. 30 lakhs work.

The Engineer said that at present 24 to 25 gallons of water was being supplied to each individual and it was enough. But due to distribution deficiencies there was artificial scarcity. This would be solved when the work of K. R. Sagar was finished by which 7 million gallons would be supplied to the city where as now 5.4 gallons were supplied, he added.

Then a resolution moved by Sri Noor Hussain appreciating the speedy partial redress given by the Department and promising all help from the Council for giving relief to the public was passed unanimoasly.

Another resolution moved by Sri Krishnamoorthy Rao accepting the offer of the Executive Engineer to place one tractor and four lorries at the disposal of the Municipal Council for argumenting water-supply on a short term basis and to take suitable steps to implement them was also passed.

The President thanked the members for showing complete co-operation and cordiality and called it a red letter day of the Council. He felt that the same tempeo and dignity of the House would be kept up in the other meetings also.

Lack Of Sincerity Among Students

MINISTER'S COUNCERN

Mysore, Mar. 17

The students had a great responsibility in a society which aimed at Welfare State and it was essential that everyone should have a chance to education, he said. If the society had to reach its goal of Welfare State, the prohibition on drinking should succeed and women had a great role in making it a success, he added.

B. C. ROY AGAINST HINDI

Dr. B. C. Roy Chief Minister of West Bengal said yesterday at Calcutta that the official language issue needed re-examination. This he said, was necessary for the unity and progress of India. The reason for the re-examination he said was that the Language Commission seemed to have a liking for Hindi.

He refuted the idea that if there was not one official and national language, the unity of the country would be jeopardised. He said that in places like Canada and Switzerland there were a number of languages recognised as official languages. As Hindi happened to be one of the 14 languages accepted as State languages, he observed, 'I wonder why there should be an arrangement by which in all matters Hindi should have precedence.'

DHEBAR TO PROBE INTO STATE CONGRESS PARTY AFFAIRS?

Bangalore, Mar. 22

Congress President Sri U. N. Dhebar who is posted with the latest developments in the State Legislature Congress Party regarding the differences with the Ministry and the move for no-confidence is expected to be in Bangalore on March 26 or 27.

The charges made against the Ministry by the dissident group in the Legislature Congress Party have been characterised as "general, vague and motivated" by the supporters of the Ministry who favour an early "probe" into the Party affairs by the High Command.

However the dissident group maintain that they would raise their point about the Ministry having lost majority support in the Party meeting on March 26 making it clear that there could be no compromise in their stand of pressing it to the logical end.

"Sri Nijalingappa will make a clean breast of the entire thing in the Party meeting and leave it to the Party to tell him what he should do after hearing him', according to a prominent member.

Enquiries in the dissident group show that there is no change in their position and that they have not received any communication from the High Command. The whole question will be settled only after the visit of Sri Dhebar.

KANNADA FILMS NEEED ENCOURAGEMENT

"Unless Kannada film goers encourage their own films like the Tamilians and Telugu people do, Kannada film world will not progress and it is diffi. cult to produce pictures of high standards", stated Sri Hunsur Krishnamurthy, Director of Kannada film Sri Krishna Garudi, which is now running successfully in the City.

He was talking to the Pressmen last evening at the Lakshmi Talkies, in a party given by the Management of the theatre. Sri D. Shankar Singh, another Kannada Director-Producer was also present.

Sri Krishnamurthy said that the present standard of the Kannada pictures should be judged by the taste of the Kannada film goers. Unless their taste improved it would be very difficult to find films of better quality in Kannada, he said.

Sri D. Shankar Singh echoing the sentiments of Sri Hunsur felt that Kannada producers should show an attitude of more co-operation and produce pictures together. He said that though there were two film studios in Mysore City, yet the Producers had found it always a point of prestiege to go to studios in Madras and produce their picture at higher cost whereas even the Telugu and Tamil producers came to Mysore to produce their pictures. Many of the studios in Madras were in no way better than the two in Mysore. Unless this mentality of Kannada film producers did not change, there was no use talking of encouragement to Kannada pictures, he said.

Earlier Sri Sheshadri and Sri Nagraj received the guests on behalf of the Theatre and Nandi Films respectively.

Knowledge for Service Of People

Mysore, March 28

Sri Nijalingappa delivering the first Convocation address of the local Institute of Social Science last evening stated that the society had become complicated with diverse problems. Two wars and the development of science had revolutioned man's ideas and thoughts, his desires and purposes. Knolwedge was in the hands of the commonman and he had to be trained properly to know his duties and responsibilities and the students who came out of this Institute should realise this, he said.

He asked the students to help evolve a society where people were free to think, to express to a large extent and to act to a small extent accordingly.

Referring to the country as such, he said that they had many problems to face. The educated owed a duty to the poor and illiterate. The country was poor and yet she was not military-minded. India had created great ideas and lead the other countries by acting according to those ideas. She was marching ahead not by exploiting other countries but by showing them how to live. He asked the boys and girls of the Institute to realise this and serve the society to the best of their ability and pointed out, "Knowledge is to use for the service of the society. Do 'Tapasya' in the midst of the people-starved, hungry, illiterate and make everyone of them to say that he lived a full life."

He appealed to the people to change their attitude towards wealth and said that accumulation would not be allowed. The aim of the Government was to build a socialistic pattern of society, in which everyone would live well, earn well, clothe well and think well.

Congratulating the founders of the Institute Sri Nijalingappa said that Mysore City was famous for several things and hoped this Institute would make it more famous. The institute was in demand and that was a sign of progress. It was good that they were producing fieldmen in social science whom the country was in need of very much, he stated.

Earlier Dr. M. V. Krishnarao, Director, welcoming said that the Institute was just two years old and the first of its kind in the State. The institute needed its own location and some funds, he pointed out.

Sri Nijalingappa distributed the Diploma certaificates to 20 students including 8 girls.

Sri M. Yamunacharya praposed a vote of thanks.

Later a dinner was given in honour of Sri Nijalingappa.

State Ministerial Crisis Still Unresolved

Bangalore, Mar. 28

The crisis in the State Legislature Congress Party may take two or three days more to be resolved according to indications here after yesterday's meeting which lasted over two hours.

Both dissident groups of the party are trying hard to find out a solution and if they fail then only they might approach the High Command, it is stated.

Most of the members who spoke yesterday appealed to the leader of the party, Sri Nijalingappa and MPCC President Sri Channiah to try to findout a solution. Sri Channiah who was present in yesterday's meeting is reported to have said that the Chief Minister should express his opinion on the no-confidence move. It would be better for the Chief Minister to reply to the criticisms, he said.

Sri T.Subramanya a member of the dissident group, said in a statement that it was their desire to settle the dispute in Bangalore and if it failed then they should approach the High Command. Denying that his group would disregard Congress High Command, he said, that as disciplined soldiers of the Congress they would always obey the directions of the High Command.

He said that his group had stopped the collections of signature, after knowing that the High Command was not in favour of it and Sri Channiah had also asked them to stop the compaign.

The Chief Minister indicated at a function informally in Mysore City last night that there was every possibility of Sri Dhebar visiting Bangalore in this connection.

Stop Selling Of Cut-Fruits Near Schools

Mysore, March 28

In the ordinary meeting of the City Municipal Council held yesterday many Councillors complained about the improper supply of water and no action being taken to ban the selling of cut-fruits near schools as thiswas the cause for all sorts of diseases. The meeting was presided over by Sri B. Narayanaswamy.

Dr. Das stated that the slaughtering of cows was increasing and that should be put an end to.

Sri Noor Hussain said that though the water supply had been bettered, yet many areas sufferred from lack of water. Diptheria was also on the increase and proper care was essential. Selling of cut-fruits even after repeated complaints had not been stopped. He threatened that if this was not stopped they would bring all the boys and girls and begin Satyagraha in front of the Municipality.

Sri Chowdiah (Cong.) also pointed out that immediate steps should be taken to put an end to this sale of cut fruits.

Dr. Kamala Raman wanted a lift to be fixed in the Cheluvamba Hospital for the aid of patients.

Replying the President said that they were taking all steps to improve water supply in the City.

The President appealed to both the groups in the House to help him to work smoothly and quickly. He said that due to seven or eight meetings every month the work of the Municipality had been slackened. He said "I do not know what will happen to me if this situation continues".

Sri Noor Hussain opposition leader stated that there was some sincerity in President's appeal individually concerned. He said "We certainly understand the difficulties. But that fault is not ours. If there is adquate representation in the committees most of the work can be finished there. If you realised the existence of Opposition and give its due share these trouble would not arise."

Sri A K. Krishnamoorthy Rao, Congress Party leader said that when Opposition was offerred seats in the Committees they did not accept them the other day but now they were complaining about that. "We must compromise. Opposition is not there to oppose every-thing., It is there to correct us, not to fight with us. If they co-operate certainly we will do."

During the time of recording the proceeding the Opposition moved that the Council viewed with great concern the heavy outstandings of water revenue from the Palace and other departments and resolved to stop supply forthwith. The move was voted down by 13 to 16 votes.

Opposition charged that partiality was shown to Palace though they had a balance Rs. 14750 to pay to the Municipality.

After some heated discussion over this the Council adjourned to meet today.

SURPLUS BUDGET FOR CITY MUNICIPALITY

NEW TAXATION PROPOSED

Mysore, March 30

Proposals for levying professional tax, license fee on building license applications, fee on cart load of rubbish and increase in the lighting tax in the consolidated rate of assessed taxes were suggested in the Budget for the year 1958 59 presented to the Municipal Council in a special meeting held here this morning. Sri B. Narayanaswamy presided.

Municipal Commissioner Sri Vazeer Ahmed while giving reasons for the above proposals meant for augumenting the resources of the Municipality, said 'the proposals to revise the rates of taxation in a few cases and to add some new items for fresh taxation have been suggested without putting the last straw on the camel's back of the Tax payer.'

The revenue for the year 1958-59 has been placed at Rs. 1,10,38,636 including the opening balance of Rs. 2,19,636. The expenditure is estimated at Rs. 1,09,70,000 leaving a balance of Rs. 68,636.

The Municipal Commissioner in his report stated that the expenditure of the Municipality would increase during the next year in three itmes namely interest on loans, more payment on lighting charges and expenses under administration due to revision of pay scales of municipal employees including of sweepers and scavengers.

The Commissioner said that the electric tax represented in the consolidated tax was 1 per cent, which was fixed about 30 years back, The Government had imposed new taxation on consumption. Hence he said that this 1 per cent could be raised to 2 per cent As regards levy of drainage cess and special sanatary cess at present it was ½ and 2 per cent of the letting value respectively. By this there was inequity in taxation and big premises were paying only the maximum of Rs. 3. This maximum limit of Rs. 3 now fixed had to be deleted, he said.

The other taxes suggested were:

Levy of professional tax in respect of income of Rs. 300 and above as per the schedule of the M.C. Act;

levy of license fee on the applications for license for fresh construction, improvements and petty repairs at the rate of ½ per cent of the estimated cost,

Levy of annas 8 per cart load of rubbish that was being taken outside the municipal limits;

Levy of shop tax; increase in the storage of octori goods;

To include the following goods in the dutiable articles: all kinds of flour. Arecanut, jeera, sewing and cotton thread and yarn, safety matches, cardamum, dry fruits, chikori and slabs (Stone and Cadapah) charging 2 per cent each and petrol 6 nP per gallon.

These proposals, he said, would yield to the extent of Rs one lakh.

Speaking on the expenditure side the Commissioner said that it had been proposed to erect a municipal workshop as much repairs were being done outside by spending heavy amounts; construction of a Sports Studium for which a grant of Rs. 250,000 was expected by Government and taking up slum clearance work at Budubudakekeri and A. K. Puram for which Rs. 2,61,000 was expected as Government grant; free distribution of milk powder and medical aid to the children of the sweepers, construction of radio booths at Kumbarakoppal and Ittigegud. He also suggested insurance of octroi godowns; to request the Government to entrust the collection of entertainment tax; increasing compensation from Government under vehicle tax. and to utilise the over draft of Rs. 5 lakhs from the Mysore Bank which had been sanctioned long back and left untouched. This amount could be used for repairing Municipal buildings and some roads, he said.

After the report was read there was some discussion as to the procedure to be adopted for giving chance for all members to participate in the debate, It was decided that each member might be given about 15 minutes and the meeting be held for three or four days continuously, each day between 4 p.m. and 8 p.m.

Then the meeting was adjourned for tomorrow.

Opposition Flays Civic Budget

Mysore, April 1

The City Municipal Council at its meeting yesterday took up the detailed consideration of the budget for the year 1958-59.

Initiating the discussion, Sri D. Lingaiah (Con.) welcomed the budget and said that they should take measures to increase the revenue from the City Market.

Dr. Kamala Raman (U C P.) complained of inefficient administration and said that instead of providing more and better civic amenities, more and more taxes were being levied on the poor.

Sri M.K. Lingaiah (Con.) said the budget aimed at an all-round development of the city. The more revenue the Municipality had the more facilities it could provide for the people.

Sri Mir Noor Hussain, Leader of the U.C.P., characterised the budget as an "exaggerated one" and said it was one of the Congress Party. The view of the Opposition was not taken and hence the responsibility also was theirs. He charged the Health Department with inefficiency and said the general administration was poor. The municipality was spending Rs. 17 lakhs on establishment which was rather too much.

Continuing, he said that partiality was shown in the collection of water and house taxes between the Government and the people. He also expressed that the municipality should have taken steps to create a reserve fund.

Sri Md. Yakub (Con). suggested that the municipality should urge the Centre for more grants to build houses for the poor in the city.

Sri H. N. Muddiah (U.C.P.) said that whereas a few officers worked efficiently quite a number of others were getting on somehow through the "influence" they wielded.

Sri Doddathammaiah (Con.) felt that the budget proposals should have been prepared in Kannada also.

Sri Sriramasetty (U.C.P.) wanted the cycle-tax to go, and luxury articles taxed. He suggested that the Lansdowne Buildings should be taken over by the municipality from the P.W.D.

Sri H. Kempegowda (Con.) called it a useful budget.

Sri B. K. Puttaiah (U C P.) felt there were discrepancies in the budget figures, with the result, the true position of the municipal finances had become vague and obscure. He stated that the municipal administration had suffered a setback after the Presidentship came over to non-officials ten years ago.

Sri S. Sanjeevaiah (Con.) said it was an ambitious budget.

The Council adjourned to meet today.

Top Heavy Administration

CRITICISM IN ML. BUDGET DISCUSSION

Mysore, April 2

The discussion on the Budget of the City Municipal Council continued yesterday also, Sri B. Narayanaswamy, President, presiding.

Sri Govindaiah (U.C.P.) said that the taxes proposed in the budget would be a heavy burden on the people and as such, the budget was unacceptable. Instead of levying more and more taxes on the people, ways of earning through other means should be found out. He suggested that more revenue could be derived by collecting rubbish and auctioning it. He also said that Mysore was no longer a garden city since parks and gardens had been neglected.

Smt. Soudaramma Venkatesan (Con.) welcoming the budget said that more grants should be given to institutions devoted to social welfare work, especially of women and children. The Municipality should open a rescue home for women and children. She urged for more grants to the School for the Deaf and the Blind and also for hospitals. She also suggested that the municipality should open schools and that shop-tax be levied.

Sri M. N. Thimmaiah (U.C.P.) criticising the budget stated that there was too much of wastage in expenditure. The office of Vice-President, he said, was a drag on the municipality's finances. Grants-in-aid given by the municipality to hospitals and other institutions were too much, and the swimming pool and sewage farm had become white elephants of the municipality, he added.

Continuing, he said that the opening of an information centre for the municipality was essential.

Sri Venkatalingaiah (Con.) called it a balanced budget and said that a revision of the rentals of shops in the City Market every once in three years was necessary.

Sri B.G. Das (U.C.P.) said that the budget was not a pleasing one and added that the Council should see that more powers were secured for it by the Government. A milk dairy was also necessary for the city, as also mobile hospitals.

Sri Chowdaiah (Con.) said the expenditure of the municipality should be reduced and a true picture of municipal financial position placed before the public before levying new taxes.

Sri T. V. Sreenivasa Rao (U.C.P.) termed the budget as conservative and said that if Mysore had to become a model city the standard of living of the people should be improved first. This could be done not by levying taxes, but by providing more civic amenities. There was no inter-departmental co-ordination in the municipality and there was duplication of work everywhere. The whole administration was a top-heavy one. Instead of giving grants to 'Sisuvihars' the municipality itself should run a model 'Sisuvihar,' he said. He wanted the abolition of cycle-tax immediately.

Sri Coutinho (Con.) said it was not right to tax the poor, but it was not a sin to tax the rich like Multanis, Sindhis and others. He wanted certain ugly spots in the city to be cleared up.

The Council adjourned to meet again today.

INEFFICIENT CIVIC ADMINISTRATION

CONGRESS LEADER'S CRITICISM

Mysore, April 3

Speaking on the Municipal Budget at the adjourned meeting of the City Municipal Council yesterday, Sri A. Krishnamurthy Rao, Leader of the Congress Party, regretted that though the number of officers and other personnel in the Municipality had increased the administration had not improved. The Municipal engineering works had slackened and collection of revenue was not up-to-date, he added.

Calling the budget just a normal one, Sri Krishnamurthy Rao stated that the financial position of the Municipality was not sound. The Municipal income had been more or less static whereas expenditure had grown disproportionately. In this connection, he referred to the new tax proposals and said that with a view to augmenting their resources and providing basic facilities to the rate-payers, they had to resort to the same, though rather unwillingly.

He suggested that the Petition-Enquiry Section be abolished, since it was not working efficiently. His other suggestions included: the transfer of officers who had worked for more than three years in the Municipality; construction of new shops in the Statue Square; taxing people who were capable of paying; enforcing stricter measures in the collection of octroi; supervision of the work of sweepers and propaganda on the upkeep of city's health; planned work on the scheme for the prevention of malaria; creation of a depreciation fund; and approaching the Central Government for more grants.

Sri Aziz Sait (U.C.P.) wanted slum clearance work to be taken up immediately in Lashkar and Mandi Mohallas. He also expressed his opposition to the new tax proposals.

Sri K Siddiah (Con.) stated that the gardens in the city should be maintained properly.

Sri Vedanta (U. C. P) opposing the budget stated that a scheme to provide houses for the Municipal employees should be taken up immediately. He felt that the proposed professional tax would hit the common man mostly. He suggested the taking over of Dasara Exhibition by the Municipality.

Sri B N. Kenge Gowda (Con.) called upon the Opposition to offer constructive criticism and said that collection of revenue on houses should be done without any partiality. A survey on the collection of octroi was also necessary, he added. He suggested the appointment of a committee to effect co ordination between different departments and remove duplication of work.

Sri Srikanta Sharma (U.C.P.) said the budget was an inflated one and added that all the sources of revenue had not been fully exploited. He opposed the proposed half per cent. tax on licensing of houses.

Sri Chikkathammiah and Sri Somasundara Sharma, both of U.C.P., felt that not much of work was being done by the Municipality for the benefit of the poor, except on paper.

Messrs. Jogi Siddaiah, Daulat Rao, Mariappa, all Congress members, spoke in support of the Budget.

Later, the Council adjourned to April 10.

Pandemonium In City Council

Mysore, April 10

Pandemonium prevailed for nearly ten minutes in the adjourned meeting of the City Municipal Council last evening when a member used the word 'Jabardasti' during interpellations.

Sri B. Narayanaswamy, Municipal President was in the chair.

When the President answered several questions regarding the vacant sites of the Municipality, Sri Noor Hussain pointed out several errors in the property register and charged that the property register was not maintained properly and not even revised.

When Sri Aziz Sait asked a question regarding the sites near new Statue Square, the President said that the question was sufficiently discussed and passed on to next question. Immediately Sri Aziz Sait stated 'We do not want this 'Jabardasti'.

Sri A. Krishnamoorthy Rao said that this word 'Jabardasti' should be withdrawn as it was a reference to the President.

Immediately Sri Noor Hussain said that he (Sri Krishnamurthy Rao) did not know the meaning of that word. He should be taught that.

At this stage the situation worsened as hot words were exchanged and at one stage Sri Noor Hussain alleged that Krishnamurthy Rao was not a graduate, had not gone to the college.

The President had to call the house to order several times.

Sri Noor Hussain moved that the Council observed with great concern the insinuation caused by Sri A. Krishnamurthy Rao, when he said that he would teach them the meaning of the word.

Sri Kempe Gowda tried to move another resolution on the conduct of Sri Aziz Sait, which the President ruled out of order.

Then Sri Sanjeeviah moved that the Council be adjourned to April 12 due to "unruling behaviour" of Sri Aziz Sait.

Sri Noor Hussain brought another amendment that the house be adjourned due to the insinuation caused by Sri A. Krishnamurthy Rao, a member of the ruling party.

CHANNIAH AND C. M. AWAITING HIGH COMMAND'S VERDICT

Bangalore, April 11

Chief Minister Nijalingappa is reported to have told the meeting of the Congress Legislature Party held at the Residency here yesterday that in view of the Congress High Command having heard the views of both the groups in the Party, the final decision in respect of the State's Ministerial crisis rested with them. He was now waiting for the High Command's directive, he added.

Sri Nijalingappa is understood to have told the Party meeting that he had not been given details of the accusations levelled against his Ministry.

The Pradesh Congress President, Sri S. Channaiah also gave details of his talks with the High Command and stated that he was also waiting for the High Command's verdict in the matter.

It is rumoured in well-informed Congress circles that an A.I.C.C. representative would be shortly coming down to Mysore to effect a settlement. The possibility of the Congress President himself visiting the State is not ruled out.

The Chief Minister accepted at yesterday's meeting members' suggestion that he should meet the members individually and collectively to know their mind.

WELFARE MEASURES FOR HARIJANS

Bangalore, April 11

Sri R. Chennigaramiah, the Local Self Government Minister, told the Legislative Assembly yesterday that a five-man committee would be set up in each Taluk for disbursing money to Harijans from the Amelioration Fund.

Education Minister Venkatappa told a questioner that according to the present plan, the introduction of compulsory education in respect of children between the ages of six and eleven, would be effected by 1961. He also pointed out that it was not possible for the Government to take over the schools run by the local bodies.

Public Works Minister Sri Veeranna Gowdh, stated that the scheme of constructing a dam across the Malaprabha River had been forwarded to the Planning Commission for being included in the Second Plan. The entire scheme, he said, was estimated to cost Rs. 15.10 crores.

Several members urged early introduction of jail reforms in the State.

More Amenities Mean New Taxes

Mysore, April 11

Replying to the debate on the Municipal Budget, the President, Sri B. Narayanaswamy said yesterday that the Municipality had to resort to new taxes only to provide basic amenities to the ratepayers and not for its own sake. They knew that nobody liked new taxes, but the new taxes had to be viewed in the light of obligations it had to discharge, he added.

Thanking the members for their constructive and valuable suggestions the President said that they would always be considered while bringing in new taxes. He agreed with the member's viewpoint that the Municipality's assets should be increased and arrears collected properly.

Continuing, the President stated that in Bombay the incidence of Municipal tax was 24 per cent whereas in Mysore it was only 13 per cent. There the Corporation was running schools and hospitals besides many other social services and the people were cooperating with them. If the same atmosphere was created in Mysore also, they would be able to provide more and better civic amenities.

Making a plea that members should view the Budget dispassionately without any party feelings, he pointed out that the year 1958-59 had an expenditure of Rs. 5,50,000 more than in the previous year. This increase in expenditure was accountable to increase in the light charges, improvement in water supply and revision of pay scales of the Municipal employees. As per the Commissioner's proposals, they would be earning nearly Rs. 3 lakhs and still they had to adjust a deficit of about Rs. 2,00,000.

The President also emphasized the need for carefully planned work in their schemes in order to usher in a Socialist pattern of society.

Sri Mir Noor Hussain Leader of the Opposition, stated that as they had not been consulted while preparing the Budget, they would like to move some resolutions on the budgetary proposals.

The President said he could not allow them before the official resolutions were considered, as the former were not on the agenda.

When the official resolutions were taken up, Sri Nur Hussain moved that the decisions of the Managing Committee were all one-sided and there was inequity in the distribution of funds to different Mohallas; hence, the proposals should not be accepted. Sri Srikanta Sharma supported the resolution.

Sri Hussain's resolution was put to vote and lost by 13-16 votes.

Later, the President adjourned the meeting to meet at 4 p. m. today.

CONFUSION AT MUNICIPAL MEETING

DISCUSSION ON CIVIC BUDGET

Mysore, April 12

Confusion prevailed at the adjourned meeting of the City Municipal Council yesterday, when the President refused to allow the Opposition members to move certain amendments to the Municipal Budget.

At the outset, the President, Sri B. Narayanaswamy ruled that the Budget shall be considered by the Council in abstract and not item-wise.

After the President's ruling was given, Sri Mir Nur Hussain moved an amendment that the Council constitute itself into a committee to consider the Budget estimates item-wise and then revert into the Council when the abstract could be considered. The amendment was put to vote and lost by 11-15 votes.

Sri B. K. Puttaiah moved an amendment seeking to increase the octroi revenue of Rs. 9.5 lakhs by Rs. 50,000 by taking measures to prevent leakages and smuggling. The amendment was voted down by the Council.

At this stage, the President stated that he could allow no more amendments to be moved.

Sri Srikanta Sharma stated that it was against all rules and regulations to prevent them from bringing in amendments.

Sri Mir Nur Hussain, Leader of the Opposition, said that the Opposition would start a satyagraha "here and now alone" if they were not allowed to move the amendments, of which they had given prior intimation to the President.

The President observed that it was an insult to threaten the Council like that.

As a result of loud whispers and protests on either side, confusion prevailed in the Council and ultimately, yielding to the Opposition demand, the President said he would allow the amendments.

Sri T. V. Sreenivasa Rao (UCP) moved that the revenue on houses and lands be reduced by Rs. 50,000 by exempting lands and houses whose annual rental value was Rs. 100 and below, from the payment of tax

Sri M.N. Thimmaiah seconded the amendment and said that by taking this step, the Council would be affording some relief to the poor.

The resolution was lost by 11-13 votes.

The President ruled that the amendment moved by Sri Sriramasetty that cycle-tax be abolished in the City, was out of order on the ground that the question had been discussed by the Council less than three months ago.

Yet another amendment moved by Sri Srikanta Sharma to the effect that the revenue on vehicle tax be increased by taking adequate steps, was put to vote and lost by 11-13 votes.

At this stage, the Council adjourned to meet on Sunday at 9 a.m.

Budget Discussion In Civic Council

Mysore, April 14

When the continued discussion of the Budget of the City Municipal Council was taken up at the adjourned meeting of the Council this morning, the house reverberated with challenges and counter challenges from either side of the house.

Speaking on an amendment, Sri Aziz Sait alleged that several influential persons including some Municipal Councillors were responsible for the misuse of the sewage farm produce.

Sri Sanjeevaiah and others from the Congress benches protested against the member's allegation and challenged it also.

Sri Srikanta Sharma and Sri M. N. Thimmaiah of the United Civic Party threw out a counter challenge and stated that if the President was prepared to hold an enquiry into the allegation "here and now alone", they were prepared to name the Councillors.

The heat raised by challenges from either side, however, lapsed into silence as no member came forward to accept the Opposition challenge.

The Council then adjourned to meet on Wednesday, April 23.

At the Council's meeting yesterday, Opposition members including the leader, Sri Mir Noor Hussain, Messrs. T. V. Sreenivasa Rao, Vedanta Hemmige, Aziz Sait and Govindaiah expressed the view that the Budget was a mess of pottage. The whole Budget gave them the impression that the ruling party was trying to hide certain facts from the Opposition's knowledge, they stated.

When Sri Aziz Sait stood up to speak on an amendment, the President stated that he would not allow him to speak any more. This provoked heat among the Opposition members and Sri Srikanta Sharma stated that the President would have to face the consequences if members were not allowed to speak.

Sri Mir Noor Hussain sarcastically remarked that if they did not want members to speak, they could as well write to the Government like that, so that the Council could be superseded by the Government.

Thereafter, the member was allowed to speak and calm prevailed.

EVILS IN MARKETING METHODS

GOVERNOR STRESSES IMPORTANCE OF REGULATED MARKET

Mysore, April 16

Laying the foundation stone of the office of the City Regulated Market Committee here this morning, Sri Jayachamaraja Wadiyar, Governor of Mysore, observed that regulated market was the only means of solving the innumerable evils that had got into the traditional marketing methods in the country.

Stressing the desirability of having regulated markets wherever foodstuffs and other commodities were marketed in large quantities, the Governor said that there was a time when there was no equivalence between the demand of commodities and their price and many a time the producer had to face a lot of difficulties on account of different systems of weights and measures and the cliques of trade.

To deceive and exploit the producer by such dishonest methods was not only against our Dharma, but illogical economics also, the Governor said. The regulated market, he added, would create confidence in the mind of the ryot and offer him protection by means of open auction, godown facilities for unsold commodities at reasonable rates and by ensuring the supply of recognised weights and measures.

Continuing, the Governor expressed his gratification at the expansion of the Mysore Regulated Market which had, brought under its purview 31 different commodities within the eight years of its existence. He complimented the market on the efficient way in which it was working and said that the very fact that the market had proposed to include vegetables also among the marketed goods, in the near future, was a standing testimony to its progress and efficiency.

Concluding, the Governor assured that the Government would provide all assistance and encouragement to the regulated market as in the past.

The Congress High Comand is reported to have advised the Chief Minister of Orissa, Dr. Hare Krushna Mahtab, to continue to run the Government as long as the Congress Party had majority in the Legislature.

INDIRECT ELECTIONS SUGGESTED

All democratic parties in the country are said to be discussing a proposal to replace the present sytem of direct elections by indirect elections. This suggestion was initiated by Acharya Vinoba Bhave and was discussed first by the Acharya on the one hand and Prime Minister Nehru and Congress President Dhebar, on the other.

This proposal has been mooted with a view to eliminating conflicts arising out of casteism, factionalism and regionalism and assisting in the gradual emergence of a classless society.

It has also been suggested that the system of indirect elections should be adopted because direct elections, in a poor country like India, are a little too costly.

Sri J. B. Mallaradhya (PSP) said the appointment of the committee amounted to the interference in the affairs of the two Universities which were autonomous. He also criticised the appointment of an "outsider" as Chairman.

Finance Minister Mariappa asserted that the Government had never encroached upon the autonomy of the Universities and that the committee had been appointed only to bring about uniformity in the functions and policies of the Universities

PUBLIC MEETING

Mysore, April 29

Under the auspices of the United Civic Party a public meeting has been arranged at 6-30 p.m. today at the Townhall Maidan, to condemn the action taken by the Government in Orissa against the Opposition leaders in that State.

NO-CONFIDENCE MOVE AGAINST CIVIC PRESIDENT

'BHAJAN' AT COUNCIL MEETING

Mysore, April 29

The Council Hall reverberated with shouting of slogans, "Bhajan," protests and counter-protests from either side of the House and caused a furore, at the Council's adjourned Budget meeting yesterday, as Opposition members tried in vain to move a no-confidence motion against the President.

When the consideration of the expenditure side of the Municipal Budget was taken up Sri M. N. Thimmaiah moved a resolution seeking to strike of the expenditure in respect of the Vice-President's establishment "as it is unnecessary."

After the motion was discussed for some time, Sri Srikanta Sharma U.C.P moved a closure motion and pressed for a division.

Sri A. Krishnamurthy Rao stated that as there were many more members who wanted to speak on the motion, they should also be given an opportunity.

As member after member from the Congress benches went on speaking, the Opposition members charged the President and the Congress members with delaying tactics to gain strength for voting.

Later, when the vote was taken, 13 members of the opposition voted in favour of the resolution and 12 against.

At this stage, the President Sri B. Narayanaswamy, said that he would exercise his casting vote and this proposal met with strong protests from the Opposition members.

Sri Mir Noor Hussain, leader and other members of the United Civic Party protested that the President's action in exercising his vote when there was a clear-cut majority was against all canons of justice and democratic conventions.

Sri Hussain said that the President was doing a great mistake and added that their confidence in the chair had thus been shaken.

Messrs. B. G. Das, M. N. Thimmaiah and B. K. Puttaiah spoke criticising the President's action.

Sri Hussain then demanded by a resolution, amidst noise and confusion, that the President should vacate the chair and face the Council's verdict.

The resolution was ruled out of order by the President on the ground that it had not been given notice of.

Then Sri Hussain spoke and said that the Opposition, under the circumstances, had no other go but to offer prayers to the Almighty to give good guidance to the President.

The Leader and members of the Opposision then collected around the President's rostrum and began doing "bhajan" and shouting slogans criticising the President's action.

Amidst confusion created thereby, the President declared that he could not conduct the proceedings of the Council "in an unruly atmosphere" and adjourned the meeting to May 5.

Earlier, the President disallowed an Opposition resolution seeking to criticise the "undemocratic" attitude of the Congress Government in Orrissa towards the "democratic" Opposition Party there.

The members of the United Civic Party who met later, are understood to have decided to move a no-confidence resolution against the President, at the Council's next meeting.

No Retirement For Me, Says Nehru

Prime Minister Nehru said at Cannanore on Sunday last that there was going to be no retirement for him so long as the pledge he had undertaken was not fulfilled.

Addressing a public meeting he referred to speculation about his future--whether he was worn out and whether he could retire.

The Prime Minister said, "so long as the mighty problems facing India are not solved, there could be no retirement for me and there would be no looking on for me." If he was irritated, impatient and angry at times it was because of his desire that they could progress fast. He wanted to quieten the mind because he wanted to be stronger and tougher. He might seek an opportunity to think calmly about the problems facing the country. He was older than most of the listeners but had still energy and strength left in him. He wanted to share that energy with the youth to tackle the task facing them, that of carrying the heavy and honourable burden of taking 400 millions forward. He was one of the 400 millions and before he went he wanted to see the advance.

GOVERNMENT EMPLOYEES CONVICTED

Action was also taken against 16 private firms and individuals to debar them from obtaining import and export licences for having been involved in corrupt and dishonest practices.

Nehru Should Step down

—Jayaprakash

Sri Jaya Prakash Narayan has again made a suggestion that Prime Minister Nehru should step aside and place somebody of his own choice in his seat as Prime Minister and help him from outside.

Sri Narayan in a statement said such a step by Sri Nehru would be good not only for the Prime Minister but for the country.

Sri Narayan said 'the step will also give him the much-needed freedom from time-consuming routine work so that he could give detached thought to the problems of the country. It would also be good for him and the country if he came again with direct personal touch with the people which he has lost now for eleven long years. This will help him to interpret the needs and desires of the people much better. And if anything went wrong, he could be available and could even step back into his office.'

Insecticide Is Cause Of Food Poisoning

The insecticide called Folidol "E"-605, used in destroying pests in tea plantations which got mixed up with the cargo of foodstuffs like wheat, atta flour, sugar, soji and grams in an Indian freighter, S.S. Jai Hind, is reported to be the root cause of food poisoning which claimed the lives of about a hundred people recently in Kerala State.

It is stated that the steamer, after touching Cochin Port on April 1 last proceeded to Tuticorin and unloaded some of the cargo, and that the foodstuffs poisoned by Folidol were sold by wholesale dealers to retailers throughout the State after April 3 last.

The Lok Sahayak Sena Camp at Sasthamkottai, where 74 persons of one Company of the Camp died as a result of food poisoning, had got its supplies from a retail merchant in Sasthamkottai.

It is reported that of the 55 cases of Folidol which were transported along with other articles by the steamer, 15 cases were found to be damaged while in transit and the bottles had flowed down coming into contact with the food cargo.

NEHRU NOT TO RETIRE

ANNOUNCEMENT IN PARTY MEETING

Prime Minister Nehru announced in the Parliamentary Congress Party meeting on Saturday that he would not be proceeding on temporary retirement from the Prime Ministership.

The decision which came out after the 130-minute meeting was greeted by all members with thunderous cheers. The Congress President, Sri Dhebar, and Kashmir Premier Bakshi Gulam Mohammed were present on special invitation.

Sri Nehru, in the course of his speech, said that when he announced his proposal to retire from Prime Ministership temporarily, he did so out of a feeling that a certain amount of 'vulgarity' and coarseness was creeping into Indian public life, 'not in the Congress only, but in the whole country.' There was a certain revivalist feeling gradually creeping which seemed to him to be utter reaction, a certain communal feeling in even among Congressmen. The atmosphere, he observed, was getting 'murkier, heavier and more difficult for a sensitive person to breath easily', he added.

Sri Nehru said that he himself as Prime Minister had 'certain competence, a certain efficiency', but he felt that he was doing his work more as a robot or automaton than with a 'deep sense of function.' He had an idea that if for a few months he got away from the Prime Ministership - he realised even then that pressure of circumstances might well bring him back-he might be able to make himself 'more suited or have a clearer mind as to what I should do about it.' 'It was really a quest, a search within himself, he said. Later he dealt in detail with the present-day affairs in the country and abroad which had disturbed his mind. But he finally added, since all of the members had expressed their desire for his continuance as Prime Minister in this crucial period, 'I shall more or less abide by your decision.'

HIGH SCHOOL FOR GIRLS

The citizens of Mysore have long been requesting the Government to establish a High School in some place in the north of Mysore City as the present High School for girls, the Maharani's High School, has been overcrowded. The City Municipal Council also passed a resolution to this effect some months ago.

We are new shocked to learn that the Government have recently accorded sanction to the Christ the King Convent to open a new High School for girls in the Jagan Mohan Palace building which is next door to the present Maharani's High School and that arrangements are in progress to shift some sections of the present Maharani's High School to the new Convent High School. This proposal of the Government of Mysore is a retrograde measure. It is strange that the Government, instead of running a High School of its own, should have thrown several girls to the tender mercies of a missionary institution and to create unhealthy competition between the two institutions located almost in the same compound. We humbly request the Government even now to change its decision and to establish a separate Government Girls' High School in Mandi or Lashkar Mohalla.

PREPARE UNIFORM TECHNICAL TERMINOLOGY

VICE-CHANCELLOR'S APPEAL TO LINGUISTIC SCHOLARS

Mysore, May 12

"Today India is torn, amongst other things, by linguistic contraversies. Language which came into being for establishing a better and closer understanding between one human being and another is unfortunately becoming the cause of misunderstanding and disagreement. In a school of this type where speakers of a dozen or more languages from all over India and outside gather, stay together, study together, eat together and are even entertained together, the spirit of co-existence is bound to develop and greater tolerence is sure to come into being" observed Sri K.V. Puttappa, Vice-Chancellor of the Mysore University inaugurating the Summer School of Linguistics here, today at the Maharaja's College.

The authorities of the Language Project have opened this Summer School in Mysore for imparting training in Linguistics for a period of six weeks. Eminent linguistic scholars from all parts of India and beyond the seas including Dr. S.K. Chatterjee, Chairman, West Bengal Legislative Council and former Chairman of Sanskrit Commission have came to participate in the deliberations.

Dr. Puttappa said that the science of Linguistics was opening out fresh vistas, conquering much new territory and introducing new refinements. He said in this field Mysore had done a great deal, which was one of the centres of Kannada learning. Kannada, he observed, was the oldest living speech in India with unbroken history of about 15 centuries.

Speaking about the medium of instruction, the Vice Chancellor said that serious thinkers in India had reached the view that regional languages should be the medium of instruction even at the University level. In Mysore Kannada had been introduced as medium of instruction in the pre-university classes and would be extended to degree classes next year. Here he pointed out that some defficulty might arise in the use of technical terms in regional languages.

But the technical terms in all the languages should be the same. A uniform technical terminology had to be prepared for use in all the Languages of India and he appealed to all linguisitic scholars to apply their mind for this solution.

Earlier Prof. T. N. Srikatiah, Chairman of the local Committee welcomed the distinguished invitees.

Sri K. Hanumanthaiya, former Chief Minister of Mysore charged the High Command with 'too much interference' in the day-to-day affairs of the party. He mounted a severe offensive against 'bossism' in the Congress at top level. There should be no continuance of the same person in the office of the Congress Presidentship, he said, and at least half the Working Committee must be composed of elected members. Not only Sri Nehru, but the whole Cabinet and other leaders in the State were in the same state of mind in respect of the Congress organisation and only a radical step could remedy matters, he thought. Sri Hernmearhaiya said that power was concentrated in three or four persons and the Congress High Command was at times dictatorial and autocratic. DISCUSSIONS ON MINISTRY-MAKING

Bangalore, May 13

Speculation is rife here about the composition of the Jatti Ministry which is expected to take office within one week. For the last two or three days there have been discussions between prominent members of the various groups in the Congress Legislature Party here in respect of the way the Ministry could be constituted so as to include the representatives of all the groups such as Hanumanthaiya group, Channiah group, Bombay Karnataka, Hyderabad Karnataka and South Kanara groups, besides the supporters of Nijalingappa.

Keen interest is also being evinced in the discussions between Sri B. D. Jatti, Chief Minister-designate, on the one hand and the Congress High Command on the other, in Delhi.

Sri Jatti, who was to have returned from Delhi today, has extended his stay by another one or two days, as his discussions with the High Command are not yet conclusive enough.

It is stated that while in Delhi, Sri Jatti would take a decision in regard to the strength of the Ministry after consultations with the High Command and that the personnel would be finalised at Bangalore after his return in a couple of days.

Sri Jatti met the Prime Minister and Home Minister Pant yesterday. He also had discussions with Sri K. C. Reddy, a former Chief Minister of Mysore, and Sri S. Channiah, MPCC President, who is now in Delhi.

The Chief Minister-designate said in Delhi yesterday that his Ministry would be constituted on the basis of broad representation to all sections.

Sri Nijalingappa has been specially summoned by the High Command for talks to have a stable Ministry. The new Cabinet is likely to have eleven Ministers as at present but the number of deputies is likely to be increased by three or four to ensure regional representation.

Sri Jatti met the Prime Minister and Home Minister Pant yesterday. He also had discussions with Sri K. C. Reddy, a former Chief Minister of Mysore, and Sri S. Channiah, MPCC President, who is now in Delhi.

The Chief Minister-designate said in Delhi yesterday that his Ministry would be constituted on the basis of broad representation to all sections.

Sri Nijalingappa has been specially summoned by the High Command for talks to have a stable Ministry. HIDDEN HAND BEHIND KHAN SAHIB'S ASSASSINATION

News is current throughout Pakistan that Dr. KhanSahib's assassination was not motivated by personal revenge but rather by a hidden political purpose.

It is also rumoured that the murder was inspired by the Muslim League so that the latter might spike the Republican guns in the general elections scheduled to be held in November this year. Dr. Khan Sahib was carrying on an intensive campaign against Muslim League.

The Pak Premier, Malik Firoz Khan Noon and West Pakistan Chief Minister, Mr. Qizilbash, are going all-out to unearth the hidden hand behind the assassination. The Khaksar leader Allama Mashriqi and four others of that organisation are already in police custody. The Pakistan Muslim League President, Khan Abdul Qayyum Khan, who was in Peshwar, was summoned to Karachi and was interrogated by the Special Officer, investigating into the murder. Some close associates of the League President will also be interrogated. The League President has criticised the way in which he was summoned and interrogated.

Something tangible is likely to come out in a couple of days.

Rs. 75-Lakh Plan For Water Supply In City

Mysore, May 19

Proposals have been sent to the Government for a Rs.75-lakh comprehensive plan for the improvement of water supply in Mysore City. This scheme includes the Rs. 48-lakh scheme now under implementation.

Revealing this when the Municipal President, Councillors and pressmen were on a visit to Krishnarajasagar yesterday, to see the progress of work in respect of the improvement of water supply, Sri Gundappa, Assistant Engineer, Vani Vilas Water Works, explained that should the new plan meet with the approval and sanction of the Government, its work would be over within two or three years.

Explaining the progress of work in respect of the scheme now under implementation, he stated that the work of laying the 24-inch pipes had been completed and within the next three months 16-inch pipes would be laid in N.R. Mohalla, Jalapuri, Karunapuram and Idiga.

Sri Gundappa further stated that on account of paucity of meters, there was plenty of wastage of water in buildings in which meters had not been installed. Presently, there was a daily consumption of 54 lakh gallons of water in the City, and out of 13,000 water connections, they had installed meters in respect of only 3,000.

For emergency purposes, they had recently ordered for four storage tanks, 5000 meters and adequate footage of pipes, he added.

With the installation of more meters, he said, they could hope for reduction in the wastage of water and improved water supply in the City.

Unemployment Survey In City

Mysore, May 20

The City Municipal Council resolved at its meeting yesterday to conduct a survey of unemployment and under-employment in the City with the help of the State and Central Governments and to take necessary steps to establish industries in order to solve the unemployment and under-employment.

The resolution was adopted as moved by Sri M.K. Lingaiah (Cong.) and amended by Messrs. T. V. Sreenivasa Rao (UCP) and B.N. Kengegowda (Cong.). Sri B.Narayanaswamy presided.

Messrs. Chowdaiah, Venkatalingaiah and Sreekanta Sharma spoke in support of the resolution.

POINT OF ORDER

At the outset, Sri Mir Noor Hussain, Leader of the Opposition, pointed out that they were holding now the meeting for the month of February. It was ununderstandable how a meeting which should have been held in February could be adjourned to any month they desired. He raised a point of order and said that the procedure they were adopting was irregular and hence the meeting was also not in order.

The President read out the relevant bye-law and ruled out the point of order stating that it was the Council which decided to adjourn.

Earlier, replying to members' questions, the President assured that allegations of misuse of petrol allotted to municipal vehicles, would be enquired into.

The President told Sri Aziz Sait that they were not aware of any person having died of diptheria for lack of medicines in the E. D. Hospital. He assured the Council that he would look into the allegations that certain medicines were being misused.

Sri T. V. Sreenivasa Rao elicited the information that some ryots whose lands had been acquired for the construction of pump house in Krishnarajasagar, had not been paid any compensation so far. The President told the member that it was the Government that had to pay the compensation and not the Municipality.

During the question-time, when the President called upon Sri Aziz Sait to minimise the number of questions, Sri M. N. Thimmaiah intervened to say that the President could not try to snub a member while eliciting any information.

Hot exchanges ensued as a result of this between some Opposition members and the President and situation cooled down after a while.

Hitch In Party Ranks

Bangalore, May 21

The Chief Minister, Sri B.D. Jatti, had a tough time constituting his Ministry throughout yesterday on account of a reported last-minute hitch that developed over the representation to different groups in the State Legislature Congress Party and also to different regions in the new Mysore State.

PLEA FOR GOVT. AID TO IMPROVE WATER SUPPLY IN CITY

Mysore, May 22

The City Municipal Council, at a special meeting yesterday, resolved unanimously to request the Central and State Governments to provide necessary financial help to give continuous water-supply to Mysore City for meeting the needs of its ever-growing population, under the National Urban Water Supply Scheme.

The resolution, moved by the chair, also stated that a delegation be sent immediately by the Council to impress upon the State and Central Governments the urgency of improving the water-supply situation in the City.

The meeting which had been called at the instance of Sri Mir Noor Hussain, Leader of the Opposition, discussed in detail the water-supply position in the various Mohallas of the City.

Sri Mir Noor Hussain pointed out that formerly there used to be a 24-hour water-supply in Mandi and Lashkar Mohallas and now in many places there was not even a 3-hour water-supply. In some places water supply situation was the same as before and there were not enough public fountains in Narasimharaja Colony, Jalapuri, etc.

Sri Hussain stated that they should have a 'master plan' for effecting an over-all improvement of the water-supply position. The 'master plan' would stand them in good stead in times of emergency as well as when new industries sprang up in the City.

He also stressed the desirability of sending a delegation to prevail on the State and Central Governments and secure their aid and assistance to solve the problem.

Sri D. Lingaiah (Cong.) said that defects in the present system of distribution of water should be removed before long and wastage of water avoided.

Sri B. G. Das (UCP) pointed out that if only they could avoid the wastage of water, they could give good water-supply to all parts of the City. He also wanted the City Improvement Trust Board to consult the Municipality whenever it undertook construction of new buildings and laying extensions.

Messrs M. Venkatalingaiah, Aziz Sait, H N. Muddaiah, Yakub Khan, B K. Puttaiah and others also participated in the discussions.

Sri Srikanta Sharma suggested the creation of a depreciation fund by the Municipality to off-set the general wear and tear.

Sri Kengegowda pointed to the deplorable condition of water-supply in Kabir Road and said that people living there were asking how they could afford to live under such condition.

Earlier, the Council considered a note on the progress of water-supply improvement schemes submitted by Sri K. V. Gundappa, Assistant Engineer. Sri Gopalakrishnamacharya, Executive Engineer, explained that a comprehensive master plan for the improvement of water supply would cost Rs. 1.5 crores, in addition to the cost of the plan now under implementation. He also explained the difficulties that were in their way on account of some delay in erecting the pipes for supply of more water to N. R. Mohalla and Jalapuri.

CIVIC BUDGET PASSED PROVISIONALLY

SEVEN-MAN BODY TO SUGGEST ECONOMY

Mysore, May 26

The City Municipal Council, at its meeting yesterday, adopted 'provisionally' the Budget of the Municipality for the current year, after protracted discussions in over a dozen sittings. Sri B. Narayanaswamy presided.

At the outset, the President read out a letter addressed to him by the Municipal Commissioner in which the latter had stated that it was very difficult for him to do any work and spend even a single rupee without the Council's sanction. The President pointed out that the delay in passing the Budget had resulted in a very great handicap for the administration and they had not been able to proceed with the works on hand.

He appealed to the members to approve the Budget without any delay and suggested that the Budget be passed "as it is" and if necessary, the Council constitute an expert committee from among the Council members to scrutinise the Budget and suggest economy in expenditure and efficiency in administration.

The Opposition members agreed to the President's suggestion after discussing the President's proposal among themselves at mid-session adjournment. When the Council met later, a resolution was unanimously passed to constitute a seven-man committee consisting of Messrs. A. Krishnamurthy Rao, S. Sanjeevaiah, B. N. Kengegowda, Mir Noor Hussain, S. Srikanta Sharma and Thimmaiah, besides the President (Chairman of the Committee), with powers to co-opt experts (not exceeding two), to consider and report on the Municipal finances, establishment, etc, within three months. The Committee, the resolution said, would suggest ways and means of improving the same, taking into consideration the proposals of the Managing Committee and other proposals sent by the Councillors. The Committee would also report on measures of economy in the Municipal expenditure.

After the resolution was passed by mutual consent between the Congress and Opposition members, the Council passed the revised estimates for the year 1957-58 and the Budget for the current year, "having regard to the formation of the Committee."

Earlier, at the discussion stage, Sri B. K. Puttaiah (UCP) said that in spite of their best efforts to co-operate, the rigid party feeling was prevailing.

Sri S. Govindaiah (UCP) called for a sence of equanimity among the members while dealing with civic affairs.

Sri Mir Noor Hussain, Leader of the Opposition, said that the President's suggestion was a good one and with a little effort they could both agree on certain fundamentals. He said that they could pass the Budget on these principles: that no new taxes should be levied; grants and grants-in-aid should be reduced to the minimum; and there must be a rational reduction in expenditure. He also mooted the suggestion for the constitution of a committee consisting of three members each from the Congress and the Opposition.

Mass Contact To Strengthen PSP

Nanjangud, May 31

Prof. Mukut Biharilal, PSP leader of U. P. pleaded for strengthening the organisation by mass contact on a national scale.

Sri Biharilal was inaugurating the State PSP Provincial Conference here today. He said that the country was facing crisis and if it was not faced boldly it might endanger the infant democracy.

He said that the evils of casteism and communalism were still rampant and the Congress had failed to establish democratic socialism. Unemployement, corruption and inefficiency were increasing, he added.

He said that power had corrupted the Congress and the Praja Socialist Party should strive to fill the political vacuum caused by the rapid disintegration of the Congress and provide a democratic socialist rule. It was the duty of the PSP to educate the people and establish democratic socialism on a firm foundation. To achieve this the PSP should move forward with great vigour and determination.

Prof. Biharilal expressed himself in favour of a reunion of the Praja Socialist Party and the Socialist Party.

Earlier Sri J. B. Malleradhya, Chairman of the Reception Committee welcoming the delegates drew their attention to the short-comings of the partymen and pleaded for their earnest co operation to strengthen the Party. He averted that the criticism that the PSP had no definite policy or programme, arose out of a mistaken notion of democratic socialism which was not merely anti-capitalism but a civilisation in itself with no exploitation of man by man and equal distribution of wealth and opportunities to all.

Discussing the Party position in the State, he expressed disappointment over lack of progress in the achievements of the Party. He suggested that each legislator should enrol 1200 members besides chalking out a code of conduct and minimum programme of activity for each member.

Sri K.R. Karanth addressing suggested the change in the name of the Mysore PSP to Karnataka PSP. He advised members to develop greater contact with the people.

Sri Gangasaran Sinha, President of the All India PSP, in his address said that mere political freedom was not enough if it did not lead to economic freedom. He urged the partymen to educate the masses to realise their rights against injustice.

There was enough technical and business capacity in India for establishing decent hotels of modern type of any size needed. This could be ventured in the private sector with little or no cost to Government. Mysore, June 9

'No Congress Ministry in the country, either in the States or at Centre can survive without the full support of the Harijans. We are determined to work wholeheartedly for the upliftment of our Harijan brothern. If there be any impediment in the way we are prepared to resign from the Ministry and even from the Congress' declared Sri N. Rachiah here yesterday.

The Harijans of Ashokapura held a reception in honour of Sri N.Rachiah, Minister for Social Services and Sri B. Basavalingappa, Deputy Minister of Home of the new Cabinet

Sri Maridevaiah, earlier, welcomed the Ministers. Messrs K. Siddiah and G. S. Ramakrishnaya also spoke, and addresses were presented to the Ministers.

Sri Basavalingappa replying stated that it would not be possible to remove poverty, casteism and other evils all on a sudden. But much had been done in this direction in the last 10 years. Harijans were in no way inferior to others. The condition of the people in Hyderabad and Bombay Karnataka was deplorable. Power had been concentrated in the hands of a few. But now 'we have determined to uplift our people whatever, may come,' he added.

Sri Rachaiah said that due to the indifference of the ruling party, Harijans had been neglected. But the Indian Constitution had guaranted certain privilages to Harijans and they had to strive hard to improve their conditions. REORGANISATION OF STATE ADMINISTRATION

GORWALA'S SUGGESTIONS TO GOVERNMENT

Bangalore, June 10

Scraping of Prohibition in the State or not to extend it to other areas, if it could not be scraped in the areas already in force and reduction of the present 19 districts to 15 and four Divisions into three are stated to be among some of the recommendations made by Sri Gorwala, Special Officer appointed by the State Government to suggest ways and means to reorganise the administration of the State to improve the efficiency and economise expenditure.

The report which is said to run to 110 pages with different sections covering the administration has laid particular stress on integrity and honesty to expedite the work and for efficient administration.

About the reduction, of districts he is said to have suggested: tagging Chikmagalur District with Shimoga; splitting Bidar into two and include some parts to Gulbarga and the rest to Raichur; areas of the present Mysore, Mandya and Hassan districts be formed into two districts, if possible to from Coorg and South Canara districts into one.

As regards the Divisions, he seems to have favoured the present four being reorganised into three: northern, Central and Southern and the Divisional Commissioners posts being held by senior officers and they to have control of all departments.

As regards the Secretariat, he appears to have suggested the idea of having more I.C.S. men as Heads of Departments,

On the economy side, he is stated to have suggested the closure of Guest Houses and treat important personages as guests of the Chief Minister or the Governor and lease out the present guest house buildings to accommodate offices located in rented buildings.

He is stated to have opposed the merger of Public Health and Medical Departments and that they should be run separately, one being preventive and another curative.

He has expressed against the State Government undertaking building works and has discouraged Government giving special pay and allowances to officers.

Sri. Gorwala is stated to have expressed his view against giving powers to village panchayets to collect land revenue, as that was 'a dangerous idea' and also against Goverument administering schools and collges but to encourage the public to form societies and run educational institutions with Government grants.

Sri H. M. Chennabasappa, Public Works Minister said here yesterday that a master plan for all major, medium and minor works in the nooks and corner of New Mysore relating to the public works Department, showing drawings and rough estimates was under the active consideration of the Government.

The Minister said plans and estimates were being prepared as and when the petition came for same kind of buildings, which meant a lot of wastage. In order to prevent duplication it was necessary to have type-design plans and estimates for all common type of buildings.

Walk-Out In Municipal Meeting

Mysore, June 13

The Opposition members staged a walk-out yesterday in the adjourned meeting of the City Municipal Council protesting against the attitude of the ruling party in accepting a tender for printing which had been received without an earnest money. The meeting was presided over by Sri B. Narayanaswamy.

Before taking up the agenda the meeting expressed its deep sorrow on the demise of Sri Madhava Rao Pawar ex-councillor and stood at silence for two minutes.

when the question of accepting the tender of a local press for entrusting the printing work of the Municipality came up for consideration, the Opposition pointed out that fresh tenders had be called for as only one tender had been received and that too without any earnest deposit. The Congress members supported for the acceptance of that tender alone. Protesting against this the Opposition walked out.

Earlier when Sri M.N. Thimmiah asked about the delay in accepting the offer made by a private person to construct a swimming pool in the City, the President replied that the question was under the consideration of the Managing Committee and early decision would be taken up.

When the question of a letter received by a local newspaper for facilities came up for consideration, it was pointed out that earlier decision taken by the Council withdrawing facilities for that paper concerned the Editor and Publisher and that the matter could be considered now if a letter was received from him and not by the Assistant Editor or Advertisement Manager. Some members of the Opposition suggested facilities being given on the present request alone. But the Congress members opposed.

Here is a busy scene from an embroidery class at the Industrial and Vocational Training Centre for Women run by the Union Ministry of Labour.

The objectives of a Welfare State include, besides creation of new employment opportunities for the unemployed, the provision of fuller employment to a large number of under-employed people, particularly women. To the hard-pressed middle class families in cities and towns, any new prospect of a little extra income goes a long way in making life richer.

Letter to the Editor :

ENHANCEMENT OF TUITION FEES IN COLLEGES

Sir,

This is a time of financial crisis both to the Government and much more to the parents who have to find ways and means to educate their boys and girls at the college level. The enhancement of tuition fees announced recently by the University authorities has stirred the minds of the parents.

The University and the Government should also realise that it is the poor parents who have to undergo hardships to educate their children.

Last time when application fees for University examinations were enhanced by the authorities, the students did not attend colleges and resorted to satyagraha. This movement was backed up by the P.S.P. leader Sri J. B. Mallaradhya. He rightly guided the students about the course of action to be taken in case the University authorities did not concede to the demands. Then Sri J. B. Mallaradhya was not in the Senate. It is really unfortunate that the tuition fees have been enhanced specially when he is in the Senate and also in the Syndicate.

Time has now come for the parents, not the students, to offer Satyagraha as the increase is a very heavy drain on parents.

It is suggested that students, parents and all educationists to meet in an open meeting early to protest and condemn the action of the University.

LIVE UP TO 250 YEARS !

Human beings could live up to the age of 150, 200 or even 250 years by means of hypnotherapy.

This is the contention of Dr. Van Pelt, President of the British Society of Medical Hypnotists. "Be wise-hypnotise" is his motto.

He has pointed out that long life had been attributed to any thing from temperance and vegetarianism to regular indulgence in alcohol or tobacco.

He says that centenarians having unconsciously hypnotised themselves into a strong desire to live and enjoy life, influence their organs and glands so that they work at maximum efficiency.

According to Dr. Pelt, women live longer than men because they 'let off steam through their emotions' while men bottle up their feelings and give themselves 'stress disease.'

He was unveiling the portrait of the present Swamiji of Sringeri Mutt Jagadguru Sri Abhinava Vidyathirtha here last evening at Shankaralaya.

On his arrival, he was received with Purnakumbam honours. Shri Nanjunda Sastry welcomed the gathering and Sri Nagaraj presented an address.

Dr. Ramaswamy Iyer paying great tributes to Sringeri Mutt said that he had come here not only to participate in this great function but also to bear testimony to the value, significance and importance of which Sringeri Mutt stood for and understand and appreciate the inner meaning of this function.

Tracing the history of the Sringeri Mutt, Sri Ramaswamy Iyer said that the Mutt which was founded by Sri Shankara had done unique service to the society and the universe at large. It was a pride, he said that all heads of this Mutt had cherished the great idea of universality of faith. Here he asked all the religious mutts in this country to spread this great emblem of Advaitha 'many in one, one in many.'

All the heads of Sringeri Mutt, he said were great scholars, thinkers, philosophers and religious leaders. No other religious head or institution of any part of the world could surpass the record of selfless service of Sringeri Mutt, he added.

Mr. Ramaswamy Iyer said that people of different religion had sought the advice and instruction from Sringeri Jagadgurus and pointed out that a person like Tippu Sultan once when he was in great trouble sought the help and blessing from this great holy Mutt.

Referring to the observation made in the address that the present Swamiji was born in Bangalore, Dr. Ramaswamy Iyer said no matter where he was born, such great people belonged to the world at large.

VONTIKOPPAL SWIMMING POOL

Sir—May I request the authorities of the Metakhalli Swimming Pool (near Coffee Curing Works, Vontikoppal) to keep the water clean instead of allowing it to stink and collect worms,

Day-before-yesterday, when I went to the Swimming Pool, I was shocked to see that it was a 'paradise of frogs' pool, Besides the water was full of mosquito larvae in thousands.

You can well imagine how a person can swim here without detriment to his health. It is essential that the pool is cleaned very often. I request the Health Officer also to take necessary precautions.

FISHING INDUSTRY ON CO-OPERATIVE LINES

UNION MINISTER KRISHNAPPA'S PLEA

Mysore, July 14

Presiding over the three-day Conference of State Minsters in-charge of Fisheries, here to-day, Sri M. V. Krishnappa, Union Deputy Agriculture Minister stressed the need for developing inland fisheries in the country.

Sri Krishnappa referred to important contributions which inland fisheries could make to our rural economy both as a direct contribution in the form of food and as an indirect contribution to higher nutritional standards to our rural people. At present, he said, there was only yield of 100 lbs. of fish per acre per annum because in these waters fish-growing operations were carried out in very casual manner. With increased attention, systematic stocking and proper maintenance of fish ponds, it was easy to raise this production to 1000 lbs. per acre per annum without artificial feeding of fish. Here the Minister pleaded for introducing fish cultural practices on scientific lines.

He said that there was much scope for organised co-operation in developing fisheries, both in the marine as well as inland side of fisheries activities. He asked all State Governments to prepare comprehensive schemes to develop fishing on co-operative lines.

Sri Krishnappa also suggested that the conference could discuss the question of utilising displaced fishermen from West Bengal for developing fisheries in several project areas.

Earlier, Sri K. F. Patil, Mysore Agriculture Minister welcomed the gathering.

Mysore Chief Minister Jatti inaugurated the Conference.

The Conference is attended by State Fisheries Ministers, Secretaries, Directors of Fisheries and non-official representatives of fishermen interests.

Down With Pants !

"There is no attire more aesthetically appealling and better suited to the Indian climate than the humble dhotie. Whether it is of cotton or silk, six-cubit-length or nine, plain or jari-bordered, it lends itself to graceful and multifarious use according to regional fashion or personal fancy. Except in the South, however, this ageless and all-purpose apparel is waging a losing battle against pauts or pyjamas. Its decline, which began when we started aping the West, was accelerated in the war years owing to shortage of cloth. The continued big price of the dhotie has further affected its popularity and compelled many to adopt the bifurcated trousers.

Danger lurks in this. A group of Swedish scientists has recently completed a study which shows that the unnatural heat caused by the wearing of trousers is likely to have cumulatively serious effect. Trousers, say the scientists, may well involve genetic hazards 100 to 1,000 time greater than those estimated from all the various sources of radiation. This may give a certain immunity in case of an atomic explosion, but that is all that can be scientifically claimed in favour of trousers or pants. Even the fair sex is being increasingly attracted to them in the shape of slacks or jeans. Now all should adopt the dhotie, lungi, toga, kilt or loin-cloth before more harm is done. Down With Pants!".

FISHERMEN'S STATUS SHOULD BE RAISED

CHIEF MINISTER JATTI'S PLEA

Mysore, July 15

Inaugurating the State Ministers Fisheries Conference here yesterday, Sri B. D. Jatti, Chief Minister of Mysore, said until the social and economic status of our fishermen was meterially raised through education and extension work, our fishing industry would never attain prosperity.

The Chief Minister stated the shortage of food and deficiencies in our dietary could be cheaply and efficiently remedied by fish production. Though India produced 12 lakhs tons of fish annually the per capita of annual fish consumption was one of the lowest in the world being little less than 4 lbs. as against Japan's 110 lbs. This was due not because our fishery resources was inadequate. Owing to lack of transport the large catch could not be transported in the fresh state to the interior.

Referring to the inland fishery in the country which was better suited to cater to the needs of the interior areas, Sri Jatti said that in Mysore they had 12 multi-purpose reservoirs, 2,700 major tanks, 20,000 minor tanks and tributaries of three major rivers. All these water. areas were yet to be brought under fish culture.

Mysore experienced one great difficulty, he said, and that was lack of fish-seed of the fast growing carps. The Government was incurring enormous sums on the import of fish-seeds. Efforts were now in progress for finding alternative sources. Here he thanked the Central Government for setting up the fisheries extension unit at Bangalore.

The Chief Minister then referred to the socio-economic condition of our fishermen and said the fishermen of Mysore, as in other parts of India, were educationally backward, superstitious, highly conservative and cronically poor. They followed traditional outmoded methods of fishing and had no other means of sustenance. So it was necessary, he said, their economic and social conditions should be improved.

Chief Minister Jatti entertained the delegates to tea at Krishnarajsagar last evening.

THREAT OF CIVIL WAR

NEHRU WARNS NATION

Prime Minister Nehru said at Allahabad yesterday that they had decided to change the old structure and remove poverty, hunger and unemployment through democratic and peaceful means. That was the only way for solving our problems. Otherwise there might be a civil war in which the country would suffer tremendously, he added.

The Prime Minister was addressing a public meeting.

Mr. Nehru regretted that there had been groupism, casteism and parochiolism in the country, which were evils. 'we have to liquidate these isms as they have greatly harmed our country,' he said.

Referring to groups in the Congress he said he was pained over this. They must stop this groupism and work hand in hand for the reconstruction of the country, he advised.

PROBE INTO VIDHANA SOUDHA SCANDAL

Bangalore, July 16

Sri A. D. Gorwala who was appointed by Mysore Government to study the work of the Government machinery and suggest measures to improve the same has submitted his report to Government.

Referring to the Vidhana Soudha 'Scandal' which had 'aroused considerable feeling among the people and affected very detrimentally the morale of the entire administration' Sri Gorwala says 'even though the Gommittee had not the power to take evidence on oath and compel the appearance of the witnesses and the production of documents, enough emerges to make it clear that there are reasonable grounds for suspecting serious malpractices.' Nearly Rs. 2 crores have been spent where not more than half-a-crore should have sufficed. So he suggests that in the interest of the State, the whole matter should be gone into thoroughly in spite of lapse of time. The appropriate agency to conduct the investigation at this stage is the Government of India's Special Police Establishment.

WEALTH FROM THE SEA

India's national income is enriched by nearly Rs. 60 crores from Indian fisheries both marine and inland. Along the country's extensive coast-line about 73,400 fishing crafts employing nearly a million fishermen ply day and night. The traditional methods used by fishermen in this country have now served to fully exploit these potentialities. Indian fishermen compare poorly with these in foreign countries, their average is 2,500 pounds per man per year, as against 80,000 tons per man, in some foreign countries.

Some of the steps taken by Government to improve fish production are mechanisation of fishing craft, training centres for fishermen, cold storage facilities, formation of deep sea fishing stations and research at the Central Inland Fisheries Station.

STOP EXTRAVAGANT HOSPITALITY

CLOSE DOWN GUEST HOUSES

GORWALA'S SUGGESTIONS TO GOVERNMENT

Bangalore, July 16

Sri Gorwala in his report has something interesting to say about the Mysore Government's extravagance for hospitality arrangements.

He says the visitor to Bangalore staying in the Residency watches with astonishment the number of entertainments given by Ministry at public cost.

Almost anything seems to be regarded as an occasion for entertainment at a tea party or a dinner party. The visit of a delegation from some foreign land or a Minister or a Deputy Minister from the Centre or any kind of dignitary, the meeting of some association_all these and many other excuses lead to a debit of several hundreds of rupees to the public funds. Why the Mysore peasant and working man from whom most of the taxes are collected should have his money spent in this way passes understanding. The report said it is saddening indeed to find some members of the Legislature complaining not against this waste but against their not being invited on a particular occasion.

GUEST HOUSES

Equally extravagant and unjustified is the maintenance of guest houses and the putting up therein of large numbers of well-paid officials and influential visitors at a much less cost than the usual hotel charges. That the Governor of another State accompanied by 21 people should be put up free of cost is no doubt gratifying to the Governor. The entertaining of such guests also probably affords the Ministry considerable satisfaction. But who pays or to use a phrase well-known in the Bombay State, 'Whose father's Divali is it ?' Certainly not that of the father of the ordinary citizen. Why then should he bear the cost ? In a City like Bangalore there are quite a number of hotels and there is no reason why high dignitaries should not, like ordinary people, stay in them. It is about time this 'free for all' is brought to an end.

The Report asserts that the Residency and other guest houses ought to be closed down, the buildings being utilised for public purposes or if not needed for that, leased or sold.

MILK POWDER PLANT FOR CITY

UNION DEPUTY MINISTER'S ASSURANCE

Mysore, July 17

Sri M. V. Krishnappa, Union Deputy Minister for Agriculture, assured the people of Mysore yesterday that the Central Government was ready to give full financial assistance for starting a Diary Farm and Milk Powder Plant in the City provided Mysore Government agreed for the same.

He was speaking here at an informal gathering of Municipal Councillors last evening.

Mysore Agriculture Minister K. F. Patil, Andhra Pradesh Minister Timma Reddy and Assam Minister Choudhry were present.

Sri B Narayanaswamy, Municipal President welcoming the Minister urged on the Union Government for starting a Diary Farm in Mysore City. He also requested for financial aid to develop their Sewage Farm.

Sri Mir Noor Hussain, Leader of the Municipal Opposition Party, requested the Central Government to start some heavy industries in Mysore City to solve unemployment problem. He also wanted the Union Government to help in improving the City water supply for which they had a Master Plan costing Rs. 1.5 crores.

Sri B. G. Das speaking complained about the soaring prices of food grains.

The Union Deputy Minister at the outset referred to the food problem in the country and said that people need not have any fear about the scarcity of food since the Government had enough stock 1.7 million tons.

Sri Krishnappa then explained in detail the Central Government's scheme for developing diary and milk powder industry in the country. He said that Rs. 20 crores had been allotted for Urban Milk Developing Scheme and 41 Diary and Milk Power Plants would be started in various parts of the country, including two for the Mysore State. One such would be started at Subash Nagar at Bangalore and the other, he hoped, would be set up in Mysore City. These Milk Centres would be on the pattern of Anand Milk Co-operative Milk Society, which not only guaranteed adequate supply of milk but also afforded employment to thousands of farmers and others.

Failure Of C. D. And N. E. S. Projects

Bangalore, July 17

Sri Gorwala in his report to the Government has referred to the working of the Community Development and National Extension projects and stated that it was an almost unanimous opinion that these projects were a failure. He says that except for those professionaly compelled to defend them it is difficult to find a single person who has anything particularly favourable to say about this. The Government of Mysore receives a large part of the money spent on it from the Central Government. Yet it has to invest a good deal of its own revenue and also to borrow considerable sum for it. In the circumstances whatever the Government of India's view Mysore might well consider it desirable to take its own line. 'Uplift' side should be dropped completely. What is needed in the countryside is pure water supply, primary education, improvement in agricultural techniques and methods and some attention to sanitation and health.

Mysore, July 17

The three-day Conference of State Fisheries Ministers which concluded here last evening, recommended to the Central and State Governments' Warehousing Corporations to set up suitable marketing organisations at important consuming centres with a view to ensuring availabilities of fish at reasonable prices.

The Conference requested the Railway Board and the Indian Airline Corporation to provide special facilities and freight rates for fish spawn and fry during May and September in the different regions.

PLAN FOR EACH VILLAGE AND EACH FAMILY

MYSORE DEPUTY MINISTER'S APPEAL

Mysore, July 18

Sri H. C. Linga Reddy, Deputy Minister for Planning and Development toured yesterday in Nanjangud and Chamarajnagar Taluks.

At Nanjangud he met the Municipal Councillors who urged for starting a health unit and N. E. S. Block for Nanjangud. They also represented that water for irrigation should be provided from the Nugu Reservoir for the remaining 10,000 acres (present 10,000 acres being irrigated.)

The Deputy Minister assured them that the question of starting a health centre would be favourably considered by the Government as WHO had recommended that this place was suitable for a health training centre. He also promised that water from Nugu Reservoir would be provided for more irrigation. In this connection the Deputy Minister said that under Thungabhadra Project water had been provided for irrigation to 98,000 acres but only half the area had been brought under cultivation. This was due to the paucity of ryots in Raichur District. In order to attract ryots from outside, the Government had decided to offer two acres of land and materials for housing free and he appealed to the people to take advantage of this offer.

On his way to Chamarajnagar, the Deputy Minister visited the N. E S. Block village, Panyada Hundi, where he distributed prizes for children for baby show. Here the villagers told the Minister that they had provided a new school building and requested for a hospital for which they announced a donation of Rs. 5,400 on the spot. The Minister complimented the villagers for their good work and asked them to plant trees in and around the village. As regards the hospital, he said, the Government were faced with shortage of doctors. Still he promised them a hospital provided they contribute Rs. 7,500, to which the villagers agreed.

In Mangala village, the Deputy Minister declared open the newly constructed Gramasevaka's quarters at a cost of Rs. 4,500. Here also the Minister advised the villagers to keep their place clean and tidy and help the country by producing more food.

In Chamarajnagar, he met the Municipal Councillors who represented that the Municipal High School constructed at a cost of Rs. 65,000 about 6 years back had collapsed. Since the building had been condemned now, they were holding classes on shift system in the Middle School building. As the Municipality had paid their contribution towards the cost of the buildng they requested the Government for providing a new building for the High School. They also urged the Government to expediate the sanction of the loan for water supply. The Deputy Minister replying expressed his surprise for the collapse of a building constructed at a considerable cost and said that the Government would take strong action against the persons responsible for this unhappy incident and at the same time would consider the quetsion of providing alternate accommodation.

Then the Deputy Minister had a long discussion with the extension officers, Gramasevakas and the members of Advisory Committee of the Taluk NES Blocks regarding the work done since the starting of the Block in April 1956.

The Deputy Minister advised the officers and the non-official members of the Advisory Committee to prepare "a plan for each village and for each family" so that they could easily execute them. He said that at present there was lot of of wastage of time in preparing plans and estimates even for small works. So the Government had asked the Deputy Commissioners to prepare an integrated plan for each village in their districts with the consultation of the Executive Engineer. He said that there was rich potentialities in the Mysore District and the N. E. S. workers should take more interest and work for the upliftment of the villages. He also wanted that the villages should have a receptive atmosphere.

The Deputy Minister then left for Bandipur.

VILLAGES TO BE ACTIVE & CHEERFUL

MYSORE DEPUTY MINISTER'S PLEA

Mysore, July 19

An earnest plea for making the villages active and cheerful was made by Sri H. C. Linga Reddy, Deputy Minister for Planning and Development, here yesterday.

He was presiding over a meeting of officers, members of Parliament and Legislatures and others to discuss the development works in the Mysore District.

The various works undertaken were explained by the officers of different departments.

Sri Shankariah, M. P. wanted that more attention to be paid for repairing of all minor tanks in the District.

Smt. Nagarathnamma pleaded for the restoration of all minor tanks in Gundlupet taluk.

The Deputy Minister addressing stated that a sum of Rs. 143.3 crores had been alloted for Second Plan in the State and out of which Rs. 35 crores had been spent. Here the Minister regretted that many of the Central Government's funds could not be utilised by the State and had lapsed. On account of this, the Union Government had made cuts in this year's grants. Since it was the People's Plan, both officials and non-officials should co-operate and make the Plan a success.

Referring to the upliftment of villages, the Deputy Minister stated that each village should prepare a plan themselves instead of waiting for the Government. This would eliminate wastage of time. If only the Panchayats, the schools and the co-operative societies in every village worked properly, there would be a lot of work done. In order to give incentive to villagers to plan themselves the Government proposed to start four Village Social Welfare Centres in the State.

He said that at present villages looked very dull. So he wanted that the villages should be made more cheerful and active.

LAND REFORMS UNPRACTICABLE AND HASTY

MYSORE LAND OWNERS CONFERENCE VIEW

Mysore, July 21

A conference of land owners and agriculturists of the Mysore State held here yesterday has strongly condemned the Jatti Report as "most unpracticable, hasty and unnecessary" and urged upon the members of the State Legislature not to accept the Report.

The Conference recommended that the basic holding of the family of five should be raised to Rs. 3,600 annually.

It urged on the Government to give exemption to Coffee Estates, fruit, mulbery, arecanut and mango gardens as exemption was given to Tea Estates.

The Conference wanted that the quantum of rent to be paid to land owners should not be less than 40 and 60 of the crop or crop raised.

It recommended the immediate establishment of a seperate Tenancy Court investing with the Executive Powers since the present arrangement was causing great delay in disposing of cases.

The Conference felt that there should be no ceiling for self-cultivation of lands and no discrimination between self-cultivator and absentee landlords.

It urged that at the time of acquisition of lands, the rate of compensation should be on the prevailing market rate.

Smt. K. S. Nagarathnamma, MLA., inaugurating the conference referred to the land reforms policy of the State Government and said that the very idea of helping the farmers had been defeated by the recommendations of Jatti Report. She felt that by accepting the Jatti Report, the State would suffer on account of less food production.

Sri K. B. Jinaraja Hegde, General Secretary of All India Agriculturists' Federation in his presidential address strongly criticised the recommendations of the Jatti Committee and said the elimination of entire class would not fetch any surplus land for cultivation and naturally it would hamper in food production. For intensive cultivation with a view to produce more food, he said, abolition of tenancy would not help in the least. That required an enormous capital for which the Government was not in a position to help.

He said there was no justification for elimination of tenancy in the case of land or convert land tenancy to ownership with only nominal compensation to the owners. This was nothing short of confiscation of lands.

In his opinion, the proposed land reforms would bring about a conflict between rural and urban interests and this was not in the best interest of the country.

Inaugurating a three-day conference of the Deputy Commissioners of the State here, yesterday, Chief Minister Jatti said that they were trying to implement the Plan in the best possible manner but one of the difficulties had been the absence of a real Plan at the District level. So the Government had now been taking steps to ensure a Plan for each district and that the development of the district was closely interlinked with the definite statement of its resources and potentialities. He hoped that this District Plan would be published within October as it would evoke public enthusiasm.

The Chief Minister stressing the need of intensification of the Small Savings Movement especially in rural parts, said that this scheme represented a practical way of solving the internal finances for the Plan.

Referring to the administration of the State, the Chief Minister said, in the new set-up the functions of the officers had widened far beyond the maintanance of law and order and collection of revenue. The Deputy Commissioners have become the pivot around the entire development of the District. Besides co-ordinating all the departmental activities they had to secure the willing co-operation of the people in the implementation of various schemes and activities.

By reason, both of his back-ground, talent and experience the Deputy Commissioner was well fitted to be the leader of the District team. So he asked them to extend the same team-spirit and idea of thinking on common problems to the block level.

The Chief Minister assured protection of the Government to those officers who would do their work without fear or favour only in interest of the public.

He also deprecated the elaborate arrangements being made for touring entailing expenditure not only for touring Ministers but the whole parties.
